REQUIREMENT: Incoming students who score below 50 on the Entry Level Math (ELM) and/or below 138 on the English Placement Test (EPT) will participate in Early Start.

• Early Start takes place during the summer before the freshman year.
• After admission, CSU campuses will inform students who are not exempt how to sign up for the Early Start program.
• Early Start math and English courses will be available at every CSU campus, several community colleges, and online.
• Early Start fee waivers are available for those who qualify.

Visit www.csusuccess.org for more information about the Early Start program.

CSU campuses have honors programs for academically motivated students and four-year degree programs for students who want to complete their degree goals in a timely manner. Recognizing that preparation is the most important variable affecting university eligibility, the CSU supports efforts to enrich the academic experience of students at both the secondary and post-secondary levels. While each campus in the system has its own unique geographic and curricular character, all campuses are multipurpose institutions and offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. Students are encouraged to explore educational options at the CSU through CSUMentor (www.csumentor.org). CSUMentor provides a student-campus matching program, a planner to track high school and college courses taken to establish eligibility for admission and financial aid planning, and electronic application.

This publication presents systemwide policies that apply to all CSU campuses. Applicants and counselors can expect common undergraduate admission standards to be applied throughout the CSU system except for impacted majors and campuses. Further information about distinctive campus programs and requirements can be found in the respective campus catalogs and/or websites. This booklet is directed primarily toward high school and community college counselors responsible for advising students preparing for university study and toward CSU admission evaluators and admission officers who interpret documents submitted in support of applications for admission. Included are details pertaining to the subject requirements and performance criteria required to establish eligibility for admission to the CSU at all undergraduate levels: first-time freshmen, lower-division transfers, and upper-division transfers. Students interested in graduate studies must visit the respective CSU campus websites. In addition to rules that incorporate regulations concerning admission and demonstration of competency in English and mathematics, this booklet includes definitions of commonly used terms.

Admission information specific to an academic year is available electronically through CSUMentor. Applicants are strongly encouraged to access www.csumentor.org when applying for admission to the CSU. Additional information may be obtained from campus admission representatives, campus websites and the CSU website at www.calstate.edu.

INFORMATION SOURCES

Calstate.edu
The CSU provides systemwide information on admission, impaction, enrollment, early assessment, educational opportunity, outreach, community service learning, degrees offered, extended university, fellowships, financial aid, international programs, fees, and summer arts programs. The Chancellor’s office describes of educational programs, systemwide policies and initiatives, historical and general information, admission requirements and procedures, and news releases are centrally located here. The 23 CSU campus websites are sources of information for students and counselors. All campus websites are linked from www.csumentor.edu or from www.calstate.edu and can be viewed by selecting your choice of campus(es) from the “Campuses” menu.

CSUMentor www.csumentor.edu
The best way to apply to the CSU is to go online to the CSUMentor website: www.csumentor.edu. It is the quickest and fastest way to apply. CSUMentor is designed to provide outreach, preadmission, financial aid, and admission information. Online application allows CSU campuses to make earlier admission decisions.

Student Planner
High school and California Community College (CCC) students can create an online planner to track their progress in meeting CSU admission requirements, learn about individual CSU campuses, and develop a comparative view of several CSU campuses to determine which institutions offer features that match the student’s interest. Students who access CSUMentor can estimate the amount of financial aid they may be eligible to receive, apply electronically to their campus, and determine if they will meet both the UC and CSU subject area requirements and conform to school curricular reform efforts. Specifically, the site provides extensive information about the “A-G” requirements, including course descriptions of innovative courses that have been accepted by the UC and therefore the CSU. It also provides assistance in understanding the UC course approval process and helpful insights as to why courses have not been approved.

-A-G- Course List https://hs-articulation.ucop.edu/ a-gcourses
Check this website to search for a California high school or program’s UC certified course list. The lists include courses that have been certified as fulfilling the “A-G” subject requirements for freshman admission to the UC and CSU. The lists also indicate courses that are UC certified honors courses.

ASSIST (Articulation System Stimulating Inter-institutional Student Transfer) www.assist.org
ASSIST is California’s official statewide repository of course articulation information. ASSIST can help California Community College students determine if they will receive credit for courses they have already taken and how these courses will apply to specific academic goals.

California Colleges www.californiacolesges.edu
This is an intersegmental website for students to explore California colleges, admission, financial aid, and career information. Transfer students can use the Transfer Planner that is designed for CCC students to track and plan work to meet CSU and/or UC lower division general education (GE/IGETC) requirements.

INFORMATION SOURCES

FAFSA (Free Application for Federal Student Aid) www.fafsa.gov
FAFSA opens the door to the federal student aid process. Students can determine eligibility, gather documents and information, check deadlines, and apply online.

California Dream Application https://dream.csac.ca.gov
The California Dream application is the application for state and institutional financial aid for AB540 students who are DACA (Deferred Action for Childhood Arrivals) or without lawful permanent residency status. AB540 students who are US citizens or permanent residents should use the FAFSA to apply for financial aid. Dependent students should have their parents’ financial information ready. For more information on AB 540 requirements and the Dream application, please visit www.csac.ca.gov/dream_act.asp

CSU Degrees/Majors Search degrees.calstate.edu
Check this website to search for undergraduate, masters, and doctoral programs available at all CSU campuses.
The CSU draws its students from the top third of California’s high school graduates with first-time freshmen comprising an average of approximately 20 percent of the overall enrollment each year.

A first-time freshman is a student who has earned no college credit after the summer promptly following high school graduation.

First-time freshman applicants must:
- Be high school graduates.
- Although regulations do not stipulate graduation from accredited high schools, the CSU participates in the activities of the Western Association of Schools and Colleges and its Accrediting Commission for Schools and encourages California high schools to be accredited by the Association Students should be home-schooled or attend non-accredited schools are expected to meet the same admission requirements as graduates of accredited high schools.
- Complete the 15-unit comprehensive A-G course pattern of college preparatory study with grades of C or better.

For purposes of admission, the CSU faculty has delegated to the University of California (UC) the responsibilities for the process of certifying high school courses that meet the A-G requirement. Consequently, CSU accepts those high school courses on the UC “A-G” course list. Courses on the “A-G” list can be used to meet CSU requirements in the designated subject areas or may be used as electives.

Under the “High School Preparation” section in the admission application, first-time freshman applicants must report all approved college preparatory “A-G” courses that have been completed, courses in which they are currently enrolled, and courses that they plan to complete prior to entrance into the CSU.

CSU campuses seek to enroll well-prepared freshmen who have completed 15 units, which comprise the “A-G” college preparatory course pattern.

Completion of the 15-unit “A-G” requirement makes any applicant eligible to qualify for admission to any CSU program. Applicants for freshman admission to the CSU are encouraged to complete rigorous coursework that will prepare them for success at the university and in the workforce. For many students, the completion of rigorous and demanding career technical (CTE) courses can help accomplish both of these important objectives.

Over 12,000 career technical courses are included on the “A-G” Guide or Course Lists at https://hsarticulation.ucop.edu/acccourselist and there are often CTE courses that can be used to meet one or more of the “A-G” categories. By judicious use of scheduling opportunities, high school students can easily complete the minimum “A-G” pattern, additional courses in specific curricula, e.g. mathematics, sciences, languages other than English, as well as a series of CTE courses.

Courses completed in summer school, or courses completed at a college for high school credit, should be included in the “High School Preparation” section of the application and be so identified. College courses completed in progress or planned that are not noted in the “High School Preparation” section should be included in the appropriate sections of the admission application. Courses used to satisfy the “A-G” requirements may not be taken Pass/Fail or Credit/No Credit.

- Earn a qualified eligibility index.

The eligibility index is a weighted combination of the high school grade point average during the final three years of high school and a score on either the SAT or the ACT. All grades earned in “A-G” courses taken in 10th through 12th grades are used to calculate the grade point average.

Minimum Eligibility Index

Graduates of California high schools or residents of California, as defined for tuition purposes, must have a minimum eligibility index of 2900 using the SAT or 694 using the ACT. Nonresidents of California must have a minimum index of 3502 using the SAT or 842 using the ACT.

The CSU eligibility index is calculated by using either the SAT or ACT as follows:

- SAT (scores in mathematics and critical reading) + (800 x high school grade point average)
- (10 x ACT composite score without the writing score) + (200 x high school grade point average)

CSU campuses will accept current and redesigned SAT scores (beginning spring 2016) for admission. Scores from either the SAT or ACT exam may be submitted.

Test Score Requirement

SAT/ACT test scores may not be required to establish the admission eligibility of California residents with high school grade point averages of 3.00 or above (nonresidents 3.61 or above).

- Impacted campuses and impacted first-time freshman enrollment categories often include test scores among the supplemental criteria required of all applicants to those campuses and enrollment categories. See “Impacted Programs.” While applicants may not necessarily need test scores to CSU if they earn a 3.00 average, they are encouraged to take the SAT/ACT to satisfy admission requirements of some CSU campuses or programs.

In addition, CSU campuses use standardized admission tests for advising and for placement in appropriate courses. Students with scores above established levels also are eligible for waiver of the requirements for the English Placement Test (EPT) and the Entry Level Mathematics (ELM) exam.

Multiple Test Scores

If an applicant submits multiple score reports, the highest score earned in each single sub score of the examination is used. A redefined SAT total will be calculated by adding the highest critical reading and highest math scores. A redefined ACT composite will be calculated as an average of the best scores in each of the four areas.

Grade Point Average (GPA)

The high school grade point average is based on the final three years (6 semesters) of high school study in all approved college-prep “A-G” courses. Bonus points may be awarded for up to eight grades of C or better in approved honors courses taken in grades 10 to 12, including up to two Advanced Placement (AP), International Baccalaureate (IB) or Advanced Placement (AP), honors courses taken in the 10th grade.

Self-reported GPA

Grades earned beginning with the summer following the top third of California’s high school graduates with first-time and including all semesters completed prior to submission of the application for admission are used to compute the self-reported grade point average. The self-reported GPA includes grades earned in a minimum of four consecutive semesters (e.g., 10th and 11th grades). Only courses from the “A-G” list are used to calculate GPA.

Coursework Used to Calculate GPA

The final three years of high school include work completed after grade 9, including ELM/ELA proficiency tests in grades 10 and 11. Only courses completed prior to high school graduation may be included in GPA calculation.

Provisional Admission

A CSU campus may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned for the senior year. The campus will monitor the final year of study to ensure that admitted students complete their secondary school studies satisfactorily, including the required college preparatory subjects, and graduate from high school.

When evaluating the admission eligibility of an applicant still enrolled in the final year of high school, coursework in progress is included in the tally of required semesters of study.

Admission notices issued on the basis of evaluation of a four- or five-semester record will stipulate that coursework in progress must be completed successfully and all CSU admission requirements satisfied prior to high school graduation.

Some campuses permit missing course requirements to be “made up” over the summer, but prior to CSU enrollment.

A campus may make preliminary offers of admission to first-time freshman applicants based on the self-reported “High School Preparation” information included in the CSU application for admission. For applicants with grade point average of less than 3.00, SAT or ACT scores are required. Impacted campuses require test scores for all freshman applicants. Campuses must verify academic performance information provided on the application.

A preliminary admission offer may be rescinded for applicants who do not accurately report their academic performance or who do not retain eligibility at the time of high school graduation, e.g., failure to complete courses in progress, failure to maintain the grade point average, etc.

A campus may rescind admission decisions, cancel financial aid awards, withdraw housing contracts and cancel enrollment for students for whom admission decisions cannot be made on the basis of self-reported information will be notified of.
additional information requirements by the campus.

Applicants must submit an official transcript after graduation to certify that all course work has been satisfactorily completed and showing the date of graduation.

Official high school transcripts must be received prior to the deadline set by the university. In no case may documentation of high school graduation be received any later than the census date (the 20th day of instruction) for a student’s first term of CSU enrollment.

Failure to provide a satisfactory final high school transcript including documentation of secondary school graduation by the campus’ deadline can result in the withdrawal of an admission offer.

Applicants will qualify for regular (non-provisional) admission when the university verifies that they have graduated and received a diploma from high school, have a qualifiable minimum eligibility index, have completed the comprehensive pattern of college preparatory "A-G" subjects, and, if applying to an impacted program or campus, have met all supplementary criteria.

Admission Exceptions

CSU admission officers and evaluators distinguish between applicants who qualify for regular admission under the admission eligibility criteria and those who may qualify for admission under exception provisions. An applicant without a qualifying index may be considered as an exception.

A limited number of such applicants may be considered for admission as exceptions under the provisions of California Code of Regulations, Title 5, Section 40900: General Exceptions or Section 40901: Exceptions for Applicants to Special Compensatory Programs.

The final decision to admit students as exceptions is made at the individual campus.

Admission to one campus as an exception does not assure admission to any other CSU campus.

Homeschooling

Students completing high school through homeschooling are expected to meet the same admission requirements as those of students attending traditional schools. Homeschooling may be affiliated with high schools or public school districts. In those cases, courses presented for satisfaction of the college preparatory subject requirements must appear on the UC’s "A-G" course list.

Other homeschooling may not be affiliated with high schools or districts. If there are insufficient courses from the UC "A-G" list, the CSU campus will review the application on an individual basis to determine that all requirements have been met.

Homeschooled applicants will be expected to meet designated transcript deadlines, as specified by each campus.

Applicants may be asked to submit supplemental information, e.g. SAT subject examinations, ACT subscore, AP examinations, etc., to document completion of CSU eligibility requirements.

Admission to one campus as an exception does not assure admission to any other CSU campus.

Homeschooled applicants will be expected to meet designated transcript deadlines, as specified by each campus.

Applicants may be asked to submit supplemental information, e.g. SAT subject examinations, ACT subscore, AP examinations, etc., to document completion of CSU eligibility requirements.

Admission and Placement Tests

English Language Examination

All undergraduate applicants, regardless of citizenship, whose native language is not English or who have not attended schools at the secondary level or above for at least three years of full time study at an institution where English is the principal language of instruction, must demonstrate English competency by receiving a minimum score on an approved English proficiency exam or must present a score of 500 or above on the Test of English as a Foreign Language. Approved exams may vary by campus, but some examples are: the Test of English as a Foreign Language (TOEFL), Pearson Test of English Academic (PTE Academic), International Test of English Proficiency (ITEP), and the International English Language Testing System (IELTS).

Campuses specify the conditions for meeting the requirement of three years of full-time English language instruction (Title 5, Sections 40752.1 and 40802.1). Individual campus requirements may vary, and TOEFL scores based on campus specific factors such as the nature of instruction offered, the availability of instruction in English as a Second Language, and student demand. Some campuses require a score higher than 500. The CSU minimum score requirement is 61 for the Internet (IBT) version of the TOEFL; some campuses may require a higher score. Contact the specific CSU campus for the most current minimum score requirements.

Students who have attended a secondary level of educational institution where English was the principal language of instruction for at least three years full time will not be held to the TOEFL admission requirement. Applicants for a second bachelor’s degree must have a TOEFL score of 550 for the paper version or 80 on the internet version.

As a guide to 2016-17 admission, the table below lists the minimum exam scores established by CSU campuses for admission during the academic year 2015-2016.

FIRST-TIME FRESHMEN: ADMISSION REQUIREMENTS

English and Mathematics Placement Tests (EPT/ELM)

The CSU requires that entering first-time freshmen, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses.

Entering freshmen students who do not demonstrate college-level skills both in English and mathematics will be placed in appropriate developmental programs and activities during the first term of their enrollment. Students placed in developmental programs in either English or mathematics must complete all preparatory work in their first year of enrollment. Failure to complete preparatory work by the end of the first year may result in denial of enrollment for future terms. Students may register for the EPT/ELM through the online registration system by accessing www.ets.org/csu. The exam may be taken at any local CSU campus.

The English Placement Test (EPT)

The English Placement Test (EPT) is designed to assess the level of reading and writing skills of students entering the CSU. The CSU EPT must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including developmental courses. Students who score 147 or above on the EPT will be placed in college-level composition classes. Exemptions from the EPT are granted only to those who present proof of one of the following:

- A score of 500 or above on the critical reading portion of the College Board SAT Reasoning Test
- A score of 22 or above on the ACT English Test
- A score of 3 or above on either the Language and Composition or Composition and Literature examination of the College Board Scholastic Advanced Placement Program
- Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in English' on the CAASPP Early Assessment Program (EAP) exam

The following ‘Conditionally Ready’ statuses require students to continue their preparation in the 12th grade by completing an approved English course with a grade of C or better. Students that do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless they meet other Early Start Program exemptions:

- A score of 500 or above on the mathematics section of the College Board SAT Reasoning Test
- A score of 500 or above on a College Board SAT Subject Test in Mathematics (level 1 or level 2)
- A score of 23 or above on the ACT Mathematics Test
- A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC exam
- A score of 3 or above on the College Board Advanced Placement Statistics exam
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU English Placement Test (ELM) examination

Placement requirements include:

- Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better
- A score of 3 or above on the College Board Advanced Placement Statistics exam
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU English Placement Test (ELM) examination

The following ‘Conditionally Ready’ statuses require students to continue their preparation in the 12th grade by completing an approved math course with a grade of C or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless they meet other Early Start Program exemptions:

- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU English Placement Test (ELM) examination
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU Entry Level Mathematics (ELM) examination

The CSU requires that entering first-time freshmen, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses.

Entering freshmen students who do not demonstrate college-level skills both in English and mathematics will be placed in appropriate developmental programs and activities during the first term of their enrollment. Students placed in developmental programs in either English or mathematics must complete all preparatory work in their first year of enrollment. Failure to complete preparatory work by the end of the first year may result in denial of enrollment for future terms. Students may register for the EPT/ELM through the online registration system by accessing www.ets.org/csu. The exam may be taken at any local CSU campus.

The English Placement Test (EPT)

The English Placement Test (EPT) is designed to assess the level of reading and writing skills of students entering the CSU. The CSU EPT must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including developmental courses. Students who score 147 or above on the EPT will be placed in college-level composition classes. Exemptions from the EPT are granted only to those who present proof of one of the following:

- A score of 500 or above on the critical reading portion of the College Board SAT Reasoning Test
- A score of 22 or above on the ACT English Test
- A score of 3 or above on either the Language and Composition or Composition and Literature examination of the College Board Scholastic Advanced Placement Program
- Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in English' on the CAASPP Early Assessment Program (EAP) exam

The following ‘Conditionally Ready’ statuses require students to continue their preparation in the 12th grade by completing an approved English course with a grade of C or better. Students that do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless they meet other Early Start Program exemptions:

- A score of 500 or above on the mathematics section of the College Board SAT Reasoning Test
- A score of 500 or above on a College Board SAT Subject Test in Mathematics (level 1 or level 2)
- A score of 23 or above on the ACT Mathematics Test
- A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC exam
- A score of 3 or above on the College Board Advanced Placement Statistics exam
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU English Placement Test (ELM) examination
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU Entry Level Mathematics (ELM) examination

Placement requirements include:

- Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better
- A score of 3 or above on the College Board Advanced Placement Statistics exam
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU English Placement Test (ELM) examination
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU Entry Level Mathematics (ELM) examination

The following ‘Conditionally Ready’ statuses require students to continue their preparation in the 12th grade by completing an approved math course with a grade of C or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless they meet other Early Start Program exemptions:

- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU English Placement Test (ELM) examination
- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CSU Entry Level Mathematics (ELM) examination
**FIRST-TIME FRESHMEN: ADMISSION REQUIREMENTS**

The CSU requires first-time freshman applicants to complete, with a grade of C or better in each course, a fifteen-unit comprehensive “A-G” pattern of college preparatory work.

**A-G Subjects**

a. **History/Social Science**
   - 2 years required (including one year of U.S. History and Government)

b. **English**
   - 4 years required

c. **Mathematics**
   - 3 years required (algebra, geometry, and intermediate algebra)

d. **Laboratory Science**
   - 2 years with laboratory required (one biological, one physical, both with lab)

e. **Language Other Than English**
   - 2 years required

f. **Visual and Performing Arts**
   - 1 year required

g. **College Preparatory Electives**
   - 1 year required

- Additional units are recommended
- **Exemptions based on language competence acquired outside classroom settings**

**a. History/Social Science**

- 2 years, including 1 year of U.S. History or U.S. history and government

- The U.S. History or U.S. History and Government Requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Completing coursework with a C or better that meets the CSU graduation requirements in United States history, constitution and American ideals (Section 40404, Title 5).

**b. English**

- 4 years required

- The English requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Completing a 3, 4 or 5 on the Advanced Placement examination in American history
  - Earning a 3, 4 or 5 on the Advanced Placement examination in Economics, European History, Comparative Government & Politics, Human Geography, Psychology, or World History
  - Earning a 470 or better score on the SAT Subject test in World History
  - Completing approved courses from the "A-G" list

**c. Mathematics**

- 3 years: algebra, geometry, and intermediate algebra (All students are encouraged to continue taking mathematics through the senior year.)

- The mathematics requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Completing a 3, 4 or 5 on the Advanced Placement examination in Calculus AB or Calculus BC
  - Completing a baccalaureate level course in mathematics with a C or better that meets the CSU General Education Breadth or IGETC requirement in written communication in English or the IGETC English composition requirement

**d. Science**

- 2 years with laboratory (one biological and one physical)

- The Laboratory Science requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Completing a baccalaureate course with a C or better that meets the CSU General Education Breadth or IGETC requirement in mathematical concepts and quantitative reasoning or appears on a (community college) "A-G" list

**e. Language other than English**

- 2 years in the same language (may be satisfied by demonstrating equivalent competence in another language)

- The Language other than English requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Earning a 3, 4 or 5 on the Advanced Placement examination in French, German, Latin, or Spanish

- Earning a qualifying score on the SAT subject test in Chinese (460), French, French with Listening (490), German, German with Listening (460), Modern Hebrew (440), Italian (480), Japanese (460), Korean (460), Latin (480), or Spanish/Spanish with Listening (460)

- Alternative (see provisions in this section)
  - Completing approved courses from the "A-G" list

- One year (two semesters or three quarters) of college level coursework is considered equivalent to two years of high school study.

- The two years of language other than English requirement may also be validated by successful completion of a single college level course.

- This course must meet either of the following criteria:
  - A first semester college level course, described in the course catalog as being equivalent to two years of high school study.
  - A second semester college course, described in the course catalog with the prerequisites of successful completion of the first semester course, OR two years of high school study.

A campus may use a different equivalency for satisfying a graduation requirement. Courses in "Conversation" do not meet this requirement. Depending on campus policy, courses may also be used to satisfy general education requirements in arts, literature, philosophy, and foreign language.

**Alternative to the Two-Year Language other than English Study Requirement**

Prospective CSU students may qualify for an alternative method of meeting the language other than English study requirement by establishing competency through either documented proficiency or assessment. Language experience judged to be comparable to two years of high school study as defined in the Model Curriculum Standards, Grades Nine Through Twelve. These experiences, together with written documentation and assessment procedures, are described in the following:

**Documentation of Language**

Language competencies may be documented through school records or similar source documents. Applicants should indicate alternate means of satisfying the "A" requirement in the section requesting a listing of college preparatory subjects.

**Formal Schooling in a Language other than English**

The applicant has completed at least three years of formal instruction in a school where a language other than English was used as a medium of instruction at least one third of the time.

- Bilingual or immersion language programs in the United States are included. To satisfy this requirement, the three years of instruction must have started no earlier than age seven.

**FIRST-TIME FRESHMEN: ADMISSION REQUIREMENTS**

The CSU requires first-time freshman applicants to complete, with a grade of C or better in each course, a fifteen-unit comprehensive “A-G” pattern of college preparatory work.

**A-G Subjects**

a. **History/Social Science**
   - 2 years required (including one year of U.S. History and Government)

b. **English**
   - 4 years required

c. **Mathematics**
   - 3 years required (algebra, geometry, and intermediate algebra)

d. **Laboratory Science**
   - 2 years with laboratory required (one biological, one physical, both with lab)

- Language Other Than English
  - 2 years required

- Visual and Performing Arts
  - 1 year required

- College Preparatory Electives
  - 1 year required

- Additional units are recommended
- **Exemptions based on language competence acquired outside classroom settings**

**a. History/Social Science**

- 2 years, including 1 year of U.S. History or U.S. history and government

- The U.S. History or U.S. History and Government Requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Completing coursework with a C or better that meets the CSU graduation requirements in United States history, constitution and American ideals (Section 40404, Title 5).

**b. English**

- 4 years required

- The English requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Completing a 3, 4 or 5 on the Advanced Placement examination in American history
  - Earning a 3, 4 or 5 on the Advanced Placement examination in Economics, European History, Comparative Government & Politics, Human Geography, Psychology, or World History
  - Earning a 470 or better score on the SAT Subject test in World History
  - Completing approved courses from the "A-G" list

**c. Mathematics**

- 3 years: algebra, geometry, and intermediate algebra (All students are encouraged to continue taking mathematics through the senior year.)

- The mathematics requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Completing a 3, 4 or 5 on the Advanced Placement examination in Calculus AB or Calculus BC
  - Completing a baccalaureate level course in mathematics with a C or better that meets the CSU General Education Breadth or IGETC requirement in written communication in English or the IGETC English composition requirement

**d. Science**

- 2 years with laboratory (one biological and one physical)

- The Laboratory Science requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Completing a baccalaureate course with a C or better that meets the CSU General Education Breadth or IGETC requirement in mathematical concepts and quantitative reasoning or appears on a (community college) "A-G" list

**e. Language other than English**

- 2 years in the same language (may be satisfied by demonstrating equivalent competence in another language)

- The Language other than English requirement may be satisfied by:
  - Completing approved courses from the "A-G" list
  - Earning a 3, 4 or 5 on the Advanced Placement examination in French, German, Latin, or Spanish

- Earning a qualifying score on the SAT subject test in Chinese (460), French, French with Listening (490), German, German with Listening (460), Modern Hebrew (440), Italian (480), Japanese (460), Korean (460), Latin (480), or Spanish/Spanish with Listening (460)

- Alternative (see provisions in this section)
  - Completing approved courses from the "A-G" list

- One year (two semesters or three quarters) of college level coursework is considered equivalent to two years of high school study.

- The two years of language other than English requirement may also be validated by successful completion of a single college level course.

- This course must meet either of the following criteria:
  - A first semester college level course, described in the course catalog as being equivalent to two years of high school study.
  - A second semester college course, described in the course catalog with the prerequisites of successful completion of the first semester course, OR two years of high school study.

- A campus may use a different equivalency for satisfying a graduation requirement. Courses in "Conversation" do not meet this requirement. Depending on campus policy, courses may also be used to satisfy general education requirements in arts, literature, philosophy, and foreign language.

- Alternative to the Two-Year Language other than English Study Requirement

- Prospective CSU students may qualify for an alternative method of meeting the language other than English study requirement by establishing competency through either documented proficiency or assessment. Language experience judged to be comparable to two years of high school study as defined in the Model Curriculum Standards, Grades Nine Through Twelve. These experiences, together with written documentation and assessment procedures, are described in the following:

**Documentation of Language**

- Language competencies may be documented through school records or similar source documents.

- Applicants should indicate alternate means of satisfying the "A" requirement in the section requesting a listing of college preparatory subjects.

- **Formal Schooling in a Language other than English**

- The applicant has completed at least three years of formal instruction in a school where a language other than English was used as a medium of instruction at least one third of the time.

- Bilingual or immersion language programs in the United States are included. To satisfy this requirement, the three years of instruction must have started no earlier than age seven.
Consecutive enrollment is not a requirement. Typical documentation will be the school transcript or another official document included in the student’s cumulative folder or e-file. If official documents are not available, the high school counselor may recommend a waiver on the basis of other appropriate evidence.

Participation in Programs for Persons with Limited English Proficiency

The applicant was, at age 10 or older, identified by a United States school as having limited English proficiency or was enrolled in a program for limited English proficient students, such as English as a Second Language or bilingual education courses.

Typical documentation will be the school transcript or another official document. If official documents are not available, the high school counselor may recommend a waiver on the basis of other appropriate evidence.

Service as a Tutor/Interpreter in a Language other than English

The applicant, at any time during enrollment in grades 9 through 12, was designated by the school principal or designee to serve as a tutor or interpreter for students or adults in a school or community setting.

Assessment of Language Skills by the High School

The student demonstrates, through assessment, competence comparable to or exceeding the Standards for Second Year Nonrestricted Situations of the Model Curriculum Standards, Grades Nine Through Twelve: Foreign Language.

Use of a common statewide assessment tool is not required for purposes of this provision. Locally developed assessment procedures may be used to assess language competence gained outside of the high school setting. However, the assessment used by the school or district should meet the guidelines outlined in “Guidelines for Assessment by the Schools.”

Guidelines for Assessment by the Schools

For purposes of assessing language skills, the CSU has defined “comparable” to mean the general ability to communicate in appropriate cultural contexts at a level consistent with the Model Curriculum Standards.

“General ability” means that demonstration of functional proficiency in excess of the Standards for Second Year in any one or combination of skills may compensate for performance below the standards in other skills. That is, it is possible for students who have oral/aural communication skills well above the standards to meet the requirement even though they have limited reading and/or writing abilities. Compensatory scoring recognizes the wide variance in content and kind of experience gained in second language learning and acquisition.

Verification Procedure to Demonstrate Language Competence

The official high school transcript is the primary document for certification of a student’s academic record. Therefore, the CSU recommends a notation on the high school transcript as evidence of the high school’s determination of a student’s eligibility of college preparatory language other than English requirement.

The notation on the transcript should specify the language other than English (e.g., “CSU Language other than English requirement met through school in Spanish.”) Other proper notations might include Limited English Proficiency, “Vietnamese,” or “Tutor/Interpreter Mandarin” or “H.S. Assessment Russian.” It is necessary for the high school to submit the documents used to establish eligibility.

If not noted on the high school transcript, a letter from the school representative to a CSU admission office verifying that the student meets the requirement will also be accepted. It is not necessary for the high school to submit the documents used to establish eligibility.

American Sign Language

American Sign Language (ASL) courses on the UC list that are accepted by the CSU as meeting the admission requirement for Language other than English.

For CSU staff: When reporting ASL, courses should be noted as American Sign Language (ASL). Compensatory scoring recognizes the wide variance in content and kind of experience gained in second language learning and acquisition.

Aesthetic Valuing

Responding to, analyzing, and making critical assessments about works in a given art form.

Connections, Relations and Applications

Connecting and applying what is learned in given art forms, subject areas, and careers.

The intention is to provide a meaningful experience and breadth of knowledge of the arts so that students may apply their knowledge and experience to the creation of art and/or be better able to understand and appreciate artistic expression on the basis of that experience and knowledge. Courses in the arts that result in performance and/or production must include appropriate critical/theoretical and historical/creative content.

“Appreciation” courses should focus on students’ ability to make aesthetic judgments about works of art and performances. Courses which are primarily recreational, athletic or body conditioning, or for social entertainment are not acceptable visual and performing arts courses.

Commercial courses or courses specifically designed for training for a profession in these areas are not acceptable.

Specifications concerning specific visual and performing arts areas: Dance

Dance courses offered for physical education credit or under any other departmental arrangement are acceptable provided they include the specifications listed above. The intent is that appropriate critical and/or theoretical and historical and/or cultural content be provided in the course of dance instruction.
Examples of acceptable courses could include ballet, modern dance, jazz and ethnic dance, choreography and improvisation, dance history, and dance production/performance.

Examples of unacceptable courses could include aerobics, drill team, cheerleading, recreational dance, ballroom dance, or other courses in which the primary intent is physical fitness or exercise.

Music
Music courses emphasizing performance should include appropriate critical/theoretical and historical/cultural content. Music “appreciation” courses should focus on the ability to make aesthetic judgments about musical performances or performances.

Examples of acceptable courses could include band (concert, symphonic, jazz), orchestra (e.g. jazz, soul, and madrigal), music history/appreciation, and music theory/composition.

Examples of unacceptable courses could include a musical group that performs occasionally for sporting or other events.

Visual Arts
Visual arts courses emphasizing the creation of art are acceptable provided they include the specifications listed above. The intent is that appropriate critical and/or theoretical and historical and/or cultural content be provided in course of arts instruction.

Visual arts courses emphasizing art history are acceptable provided they include “creative expression” or “aesthetic valuing” according to the standards listed above.

Examples of acceptable courses could include painting, drawing, sculpture, art photography, printmaking, video production, contemporary media, ceramics, and art history.

Examples of unacceptable courses would include crafts courses, mechanical drafting, and photography if offered as a photography component in a yearbook or school newspaper.

Examples of acceptable courses might include band concert, Mazz and ethnic dance, choreography and historical/cultural content.

Examples of unacceptable courses might include aerobics, drill team, cheerleading, recreational dance, ballroom dance, or other courses in which the primary intent is physical fitness or exercise.

Electives
Electives - On a course-by-course basis, one or more years may be satisfied:
Completing approved courses from the “A-G” list; or
Completing courses with a C or better that apply toward the CSU General Education Breadth or Intersegmental General Education Transfer Curriculum (IGETC) requirements or appears on the “A-G” list;
Completing courses with a C or better in the liberal arts and sciences, beyond those courses listed above; or
Earning a 3, 4, or 5 on Advanced Placement examinations not listed above.

The four CSU campuses with agriculture programs (Chico, Fresno, Pomona, and San Luis Obispo) will examine courses not on the UC “A-G” list to determine on a course-by-course basis if they meet the requirements for admission.

Year-sequence Course
A final grade of C or better in the second semester of a yearlong course is recognized as validation of satisfactory completion of subject

Performance requirements only in the subjects of mathematics, chemistry, or languages other than English.

Multiple-year Courses
Completion of an advanced course in the same subject presupposes knowledge of the previous course(s) in languages other than English and mathematics. For example, satisfactory completion of a second year of foreign language will validate the first year. The second year of algebra will validate first-year algebra but will not validate geometry. Integrated studies that appear on UC “A-G” list will satisfy the subject requirements certified.

The CSU high school requirement in mathematics (algebra, geometry, and intermediate algebra) may be validated with higher-level college preparatory mathematics courses such as trigonometry, analytic geometry, calculus, and Integrated Mathematics III.

Exceeding Minimum Requirements
Although not an admission requirement, all students and especially those students planning to major in mathematics, the sciences (including computer science), engineering, pre-medicine, other science related fields, business, or economics are encouraged to complete four years of college preparatory work in mathematics.

Demonstrated proficiency in English and mathematics is required prior to enrollment. (See "English and Mathematics Placement Tests, EPT/ELM" for additional information.)

Subject Requirement Substitution for Students with Disabilities
Applicants with disabilities are encouraged to complete preparatory course requirements. In certain circumstances, if applicants are independently judged as unable to fulfill a specific course requirement because of a documented disability, alternate college preparatory courses may be substituted for specific subject requirements. 

Substitutions may be authorized on a case-by-case basis after review of disability documentation, academic records and recommendation by an academic advisor or guidance counselor in consultation with an admission officer and the director of a CSU Office of Services to Students with Disabilities.

Students should be aware that failure to complete the courses required for admission may limit later enrollment in certain majors, particularly those involving mathematics or languages other than English.

For further information, please contact the admission officer or the director of the Office of Services to Students with Disabilities at the CSU campus where the student wishes to attend.

Disabilities
Substitution for Students with Disabilities
Applicants with disabilities are encouraged to complete preparatory course requirements. In certain circumstances, if applicants are independently judged as unable to fulfill a specific course requirement because of a documented disability, alternate college preparatory courses may be substituted for specific subject requirements. 

Substitutions may be authorized on a case-by-case basis after review of disability documentation, academic records and recommendation by an academic advisor or guidance counselor in consultation with an admission officer and the director of a CSU Office of Services to Students with Disabilities.

Students should be aware that failure to complete the courses required for admission may limit later enrollment in certain majors, particularly those involving mathematics or languages other than English.

For further information, please contact the admission officer or the director of the Office of Services to Students with Disabilities at the CSU campus where the student wishes to attend.

</table>

* SAT = (combination of mathematics and critical reading scores)
The CSU does not currently use results of the SAT or ACT writing scores in the determination of admission.

GPA below 2.45 does not qualify for admission

* SAT = (combination of mathematics and critical reading scores)
The CSU does not currently use results of the SAT or ACT writing scores in the determination of admission.
High School Grade Point Average (GPA)

The high school grade point average is based on grades earned in all approved college preparatory "A-G" courses taken in the 10th, 11th, and 12th grades.

a. The high school GPA is based upon work completed after grade 9 but prior to high school graduation. Summer sessions following grade 9 are included in the calculation.

b. When courses are offered for less than full unit value, fractions of course credit may be rounded, course by course, to the nearest 1/2 unit or equivalent.

c. Any grade may be repeated with the exact same course (honors, IB, or AP course) may only be repeated with the same level honors, IB or AP course). Repeated courses are used only once in the grade point calculation using the attempt with the highest earned grade. However, if the highest grade was earned in grade 9, it is not included in the GPA. Units and grades accumulated by repeating courses may not be counted toward meeting two subject requirements.

d. College level work recorded on the high school transcript as meeting high school graduation requirements or recorded only on a college transcript is used to calculate high school units and GPA. Unless otherwise noted by the high school, one course of three semester (four quarter) units is usually considered equivalent to one year of high school study.

e. Where percentage grades are used on the high school transcript and letter grade conversion is not provided, the conversion chart below should be used:

<table>
<thead>
<tr>
<th>Lowest Passing Grade</th>
<th>A</th>
<th>B</th>
<th>C</th>
<th>D</th>
</tr>
</thead>
<tbody>
<tr>
<td>75</td>
<td>83-100</td>
<td>83-92</td>
<td>78-82</td>
<td>75-77</td>
</tr>
<tr>
<td>70</td>
<td>91-100</td>
<td>80-90</td>
<td>73-79</td>
<td>70-72</td>
</tr>
<tr>
<td>65</td>
<td>90-100</td>
<td>77-89</td>
<td>69-76</td>
<td>65-68</td>
</tr>
<tr>
<td>60</td>
<td>88-100</td>
<td>74-87</td>
<td>64-73</td>
<td>60-63</td>
</tr>
<tr>
<td>50</td>
<td>84-100</td>
<td>68-83</td>
<td>57-67</td>
<td>50-56</td>
</tr>
</tbody>
</table>

Where no lowest passing grade is indicated on the transcript, and where it cannot be determined from the grade and credit on the transcript, 70 is considered to be the lowest passing grade.

f. Plus and minus grading designations on high school courses are not used for grade point calculations.

g. Semester grades are used generally, however, courses of other lengths may be prorated as a portion of a year course.

To calculate the GPA, assign 4 grade points for each unit of A, 3 points for each B, 2 points for each C, 1 point for each D, and 0 point for each F, and multiply the units by the grade points. Sum the units and grade points separately; then divide the total grade points by total units to get the average.

Example: Total Grade Points/Total Units = GPA

<table>
<thead>
<tr>
<th>A</th>
<th>B</th>
<th>C</th>
<th>D</th>
<th>Total Grade Points per Unit</th>
<th>Total Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>5</td>
<td>4</td>
<td>3</td>
<td>2</td>
<td>1</td>
<td>6</td>
</tr>
<tr>
<td>19</td>
<td>55</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Calculation: 55 / 19 = 2.89 GPA

h. If a high school course has been repeated, only the higher grade need be recorded. However, if the student is currently repeating a course or plans to repeat a course, the original grade must be considered in the section of the application for admission on high school preparation with a notation indicating when the course repetition is planned. The original course grade is used to calculate the GPA if the course to be repeated has not already been completed.

i. Courses taken in 9th grade or earlier: Although college preparatory subject requirements may be met through satisfactory completion of courses taken prior to the 10th grade, the GPA used in calculating the eligibility index is based only on work completed after grade 9. Thus, a student completing Algebra I in the 9th grade (or in some instances, the 8th grade) must earn a C or better to satisfy the subject requirement, but the grade does not enter into the GPA computed for the eligibility index.

Courses in mathematics and foreign language completed in the 7th and 8th grades with grades of C or higher should be included in the "High School Preparation" section if they are comparable in content to courses offered at the high school. However, no grades earned in 7th, 8th, or 9th grade courses are used in the calculation of the high school GPA.

Honors Courses

Courses designated as honors courses on the UC’s “A-G” list receive additional grade points for grade point average calculations. Honors, AP, and IB courses approved for additional honors credit are identified on the UC “A-G” list.

Grades in approved honors courses as designated on the UC “A-G” list are assigned an additional point for grades of A, B, or C. There are no honors points awarded for grades of D and F.

CSU will award honors points in the grade point average calculation for 8 semester courses taken in 11th and 12th grades, including up to two IB or AP courses or honors courses with 11th or 12th grade content taken by a student in 10th grade.

Honors credit for grade point calculation is awarded according to the following criteria and policies:

a. Grades in approved honors courses receive five points for each unit of A, or 4 points for B, or 3 points for C. No bonus points are awarded for grades of D or F.

b. A maximum of four units of honors (eight semester courses) may be granted additional points.

c. Only honor courses taken during or after the 10th grade may be assigned additional points.

d. Honors level courses must be limited to students meeting criteria established by the district or school that specify prerequisite courses and appropriate performance levels.

e. Honors level courses must have extended and enriched content, significantly higher performance expectations, and additional workload that set them apart from regular college preparatory courses in the same subject.

f. A high school course that is not an AP course shall be designated an honors level course only when there is a regular college preparatory course offered in the same subject at the same grade level.

g. Honors level courses must include a comprehensive written final examination.

h. Advanced Placement courses in the “A-G” college preparatory subjects are honors courses.

i. If a school offers an Advanced Placement course in addition to an honors level course in the same subject, an additional one-year course in the same subject may be certified as honors. A maximum of two yearlong courses in a subject may be certified.

j. Designated International Baccalaureate courses listed on the UC “A-G” list are considered to be honors courses.
Advanced Placement/Standing
Students may earn up to six semester units of baccalaureate credit for each Advanced Placement examination of the College Entrance Examination Board on which the applicant receives a score of 3, 4 or 5.

Baccalaureate Credit
Baccalaureate level courses taken in high school may be awarded transfer credit unless the college or university transcript designates that the courses were used solely to meet high school graduation requirements. Students are required to submit an official transcript from a regionally accredited college or university showing completion of baccalaureate level courses to receive such credit.

International Baccalaureate
International Baccalaureate courses designated as honors courses on the UC “A-G” list are awarded extra grade points for computation of the high school grade point average.

In addition, most CSU campuses award advanced standing credit for successful performance on Higher Level IB examinations. Information about IB credit practices is available from CSU campuses.

College-Level Examination Program (CLEP)
Students may earn units of baccalaureate credit for College Level Examination Program (CLEP) examinations which may be applied toward the degree and/or admission eligibility. CSU faculty has determined the passing scores, minimum units of credit earned, and certification area (General Education Breadth and/or U.S. History, Constitution, and American Ideals) for these exams.

Information about CLEP credit practices is available from CSU campuses.

(See “Non-traditional Credit” for further descriptions of baccalaureate credit that can be earned by means other than traditional college course enrollment.)

High School Graduation Equivalency
Applicants presenting the state high school proficiency test or the GED are expected to meet the 15-unit college preparatory subject requirements and the eligibility index based on appropriate courses completed after the 9th grade.

Students Who are Not High School Graduates
Students who are not high school graduates may satisfy the high school graduation requirement by submitting the California Certificate of Proficiency or the General Educational Development (GED) certificate or equivalent certificates awarded by other states.

California High School Proficiency Test
A “pass” on the California High School Proficiency Examination is considered equivalent to graduation from high school. For additional information on the exam, refer to www.cspe.net.

Tests of General Educational Development (GED)
According to the California Department of Education (CDE), to pass the GED Test in California, examinees must: 1) Receive a standard score of at least 410 on each of the five GED subtests; and 2) Earn an average standard score of 450 or higher. For more information, visit CDE at www.cde.ca.gov/ta/cc/pd/.

High School Student Checklist
• Establish an educational plan
• Discuss your college aspiration with your family
• If enrolled in a California high school, take the California Assessment of Student Performance and Progress (CAASPP) and fill in the bubble to release scores to the CSU
• Take Advanced Placement and honors courses
• Attend college information events at your school
• Meet with your school counselor to discuss your college plans and how to reach your goal(s)
• Prepare for college admission tests
• Visit college campuses

Apply Online
• Visit www.csude.edu/college to learn more about all CSU campuses and related major requirements
• Start the online application process early and submit your application during the application priority period. The CSU begins accepting applications for fall term the preceding October 1.
• Check campus application deadlines as campuses may have different deadlines based on the number of students applying for admission to that campus.
• When requested by the CSU (which campuses), send your transcripts directly to the admission office of your campus choice.

Financial Aid and Financial Planning Activities
• Research financial aid/college costs
• Be aware of all the financial aid rules, policies, and deadlines
• The financial aid office or a financial aid counselor can provide this information
• Use the CSU Cost Calculator at www.csumentor.edu to receive an estimate of the financial aid for which you may qualify
• Attend a financial aid workshop if planning on applying for education loans
• Plan the entire financial picture: What amount of total funds will need to be earned, borrowed through loans, or received through grants and scholarships to cover all university related expenses?

Orientation and Early Registration
• Students should participate in orientation and early registration to make sure they receive the right courses at the best times for their schedules.
• All CSU campus websites can be accessed at www.csude.edu. Select the “Campuses” menu and then select the campus of your choice.

Fee Waivers and Exemptions
The California Education Code includes provisions for the waiver or exemption of mandatory systemwide tuition fees as follows:

Section 86025.3 – Qualifying children, spouses/registered domestic partners, or unmarried surviving spouses/registered domestic partners of a war veteran of the U.S. military who is totally service-connected disabled or who died as a result of service-related causes; children of any veteran of the U.S. military who has a service-connected disability, was killed in action, or died of a service-connected disability and meets specified income provisions; any dependents or surviving spouses/registered domestic partner who has not remarried of a member of the California National Guard who in the line of duty and in active service of the state was killed or became permanently disabled or died of a disability as a result of an event while in active service of the state; and undergraduate students who are the recipient of the child of a recipient of a Congressional Medal of Honor and meet certain age and income restrictions;

Section 68120 – Qualifying children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of active law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships); and

Section 68121 – Qualifying students enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001 terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69342.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001. Students who may qualify for these benefits should contact the Admissions/Registrar’s Office for further information and/or an eligibility determination.

Section 68122 – Students who are victims of trafficking, domestic violence, and other serious crimes who have been granted U visa status are exempt from paying nonresident tuition if they (1) attended a California high school for three or more years; (2) graduated from a California high school or attained the equivalent; and (3) registered as an entering student or are currently enrolled at a CSU campus.

Section 68130.5 – Students who are not residents of California are exempt from paying nonresident tuition if they (1) attended high school in California for three or more years or earned credits in California from a high school equivalent to three or more years in full-time high school coursework and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of those schools. (2) graduated from a California high school or attained the equivalent; and (3) registered as an entering student or are currently enrolled at a CSU campus. In addition, students without lawful immigration status will be required to file an affidavit stating that they have filed an application to legalize their immigration status, or will file an application as soon as they are eligible to do so. This exemption from paying nonresident tuition does not apply to students who are nonimmigrant aliens within the meaning of 8 U.S.C. 1101(a)(15), except as provided by Section 68122 above.

Students who may qualify for these benefits should contact the Admissions/Registrar’s Office for further information and/or an eligibility determination.
Services to Students with Disabilities

Students who have a verifiable disability that prevents them from completing specific course requirements and need to have special accommodations in the classroom, or who want additional information on support services provided to qualified students, should contact the Office of Services to Students with Disabilities (also called Disabled Student Services) at the appropriate CSU campus as soon as possible. Careful planning is necessary to ensure that otherwise qualified students with disabilities are able to be admitted to the CSU and succeed in the classroom.

Support services are available to students with verifiable disabilities. Students must contact the respective campus as early as possible in order to learn more about services available. The Policy for Provision of Accommodation and Support Services to Students with Disabilities highlights the programs for students with disabilities through the CSU. CSU Guidelines for the Assessment and Verification of Students with Learning Disabilities, referred to as CSU Guidelines, are designed to provide an equal educational opportunity to students with learning disabilities who are otherwise qualified for admission. Additional information about services to students with disabilities can be obtained from each CSU campus at:

www.calstate.edu/sas/disabilities.shtml

Immunization Requirements

Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment.

Measles and Rubella: All new and readmitted students must provide proof of full immunization against measles and rubella prior to enrollment.

Hepatitis B: All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of a vaccine over a minimum four to six month period.

If you need further details or have special circumstances, please consult the university health center or designated campus personnel. Each incoming freshman who will be residing in on-campus housing will be required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent contracting the disease and indicating whether or not the student has chosen to receive the vaccination. These are not admission requirements, but are required of students as conditions of enrollment in the CSU.

FIRST-TIME FRESHMEN: ADMISSION REQUIREMENTS

Entering resident freshmen who are not proficient in math or “at risk” in English will need to start the remediation process before their first term.

All new freshmen students who have not demonstrated college-readiness in mathematics and English will need to begin work on becoming ready for college-level English and mathematics before the start of their first term. The goals of Early Start Program are to:

• Better prepare students in math and English, before the fall semester of freshman year;
• Add an important and timely assessment tool in preparing students for college; and
• Improve students’ chances of successful completion of a college degree.

Resident students would be required to participate in the Early Start Program if their ELM score is less than 50 and/or their EPT score is less than 147.

NEWLY ADMITTED FRESHMEN: ADMISSION REQUIREMENTS

Newly admitted freshman students are required to complete Early Start will be notified of the requirement and options for completing the program as part of campus communications to newly admitted students.

For more information on the Early Start Program and college success, please visit www.csusuccess.org.
Each year, nearly 60,000 transfer students enter the CSU system and 95 percent of those are transfer students from the California Community Colleges (CCC).

Transfer students who begin their educational journey as CCC students are as successful academically as students who enter CSU directly from a California high school. Over two-thirds of students who receive a baccalaureate degree from the CSU begin their educational program at a CCC.

The key to a successful transfer is early planning to ensure that students complete courses that meet the admission, general education, and lower division major preparation requirements. The CSU seeks to assist CCC students in preparing for transfer and completing their baccalaureate degree at one of the 23 CSU campuses.

Admission Priority

The CSU gives priority admission consideration to CCC students who meet the CSU upper-division transfer admission requirements. However, the highest admission priority is given to CCC students who have earned a CSU transfer associate degree. CCC students will be considered as having achieved junior class level standing once they have completed the transfer associate degree or at least 60 semester (90 quarter) transferable level units that meet their lower-division major requirements.

Transfer Credit

A maximum of 70 semester (105 quarter) baccalaureate units earned at community colleges may be transferred to the CSU. Community college coursework completed above the 70 units may be used to meet general education (GE), elective units, or major preparation requirements even if the units will not count toward the baccalaureate degree.

Transfer credit is also granted to students who successfully complete equivalent courses at other accredited or four-year courses or universities.

Transfer: Grade Point Average

Calculations of transfer grade point averages include all transferable units attempted at all colleges attended and are part of transfer admission requirements.

Upper-Division Transfer Admission Requirements

To qualify for admission as an upper division transfer, applicants must complete 60 or more semester (90 or more quarter) transferable units and have met the following requirements:

- Completed at least 30 semester (45 quarter) units of general education courses, with a grade of C or better in each course, including All general education requirements in communication in the English language (9 semester or 12-15 quarter units) consisting of one course in written communication, one course in oral communication, one course in critical thinking (CSU GE category A), and one course in mathematics/quantitative reasoning (CSU GE category B).

The mathematics course must have intermediate algebra as a pre-requisite unless completion of area B is certified or the student has earned a transfer associates degree. Go to www.ASSIST.org for listings of courses at every CCC that meet the CSU general education requirements.

- A cumulative grade point average of 2.0 or better in all transferable units attempted; and
- Are in good standing at the last college or university attended (i.e. eligible to re-enroll at that college or university).

Lower-Division Transfer Admission Requirements

An applicant who completes fewer than 60 semester (90 quarter) units of college credit is considered a lower division transfer student. Due to enrollment pressures, most CSU campuses do not allow lower division transfers so that more upper division transfers can be accommodated.

Having fewer than 60 semester (90 quarter) units at the point of transfer may affect eligibility for registration priority at CSU campuses and may affect the student’s financial aid status.

California resident transfer applicants with fewer than 60 semester or 90 quarter units must:

- Have a cumulative grade point average of 2.0 (C) or better in all transferable units attempted; and
- Be in good standing at the last institution attended; and
- Meet any one of the following eligibility standards:

Transfer Based on Current Admission Criteria

The applicant meets the freshman admission requirements in effect for the term for which the application is filed; - OR -

Transfer Based on High School Eligibility

The applicant was admitted as a freshman at the time of high school graduation and has been in continuous attendance in an accredited college since high school graduation; - OR -

Transfer Based on Making Up Missing Subjects

The applicant had a qualifying eligibility index at the time of high school graduation (combination of GPA and test scores if needed), has made up any missing college preparatory subject requirements with a grade of C or better, and has been in continuous attendance in an accredited college since high school graduation.

One baccalaureate level course of at least 3 semester (4 quarter) units is usually considered equivalent to one year of high school study.

Transfer Associate Degree: A Pathway to the CSU Degree

The Student Transfer Achievement Reform Act (SB 1445) established an Associate in Arts for transfer (AA-T) or Associate in Science for transfer (AS-T) for CCC students. The AA-T or AS-T degrees are designed to provide a clear pathway to the CSU degree major.

For information on meeting the requirements for a transfer AA-T/AS-T degree, students should contact their local community college transfer center or advisor.

An up-to-date list of associate degrees offered by CCC, and CSU campuses where degree majors are aligned with CCC can be found at: www.admissionswithaguarantee.com

Transfer Admission Requirements

Admission Requirements for the Associate Degree for Transfer

CCC students who are awarded a transfer associate (AA-TAS-T) degree and meet the CSU minimum admission requirements are guaranteed admission with junior standing and are given priority admission consideration when applying to a program that has been deemed similar to the degree earned at the student’s community college. Once admitted, the student will only be required to complete 60 additional prescribed units to qualify for the similar baccalaureate degree.

The transfer associate (AA-TAS-T) degrees include:

- 60 semester or 90 quarter units of coursework eligible for transfer to the CSU, including General Education: IGETC (CSU) or CSU GE Breadth.
- At least 18 units of coursework in the major or area of emphasis as defined by the California Community College AA-T or AS-T degree.

Associate degree for transfer applicants must have a minimum cumulative GPA of 2.0 or all college-level work completed.

For up-to-date information on the transfer associate degree, visit www.calstate.edu/transferdegrees/aa-degrees.shtml or visit your California Community College Transfer Center.

Transfer - General Education Course Requirements

All students who earn a baccalaureate degree from the CSU are required to complete at least 48 semester (72 quarter) units of general education (GE). Of the 48 semester units, at least 9 semester (12 quarter) units must be upper division level courses taken at the CSU campus awarding the degree.

It is highly recommended that CCC students complete the 39 lower division general education units while attending a CCC campus prior to transfer to the CSU. Some CSU campuses have general education programs with minimum unit requirements of greater than 48 units.

(Note: Students are urged to contact www.csumentor.org or www.assist.org to learn about the CSU general education requirements. The CSU Mentor website has an online transfer planner that helps students track their progress in meeting general education requirements while attending a CCC. For students who enroll at CSU with 60 transferable semester (90 quarter) units but have completed few general education units, completion of the baccalaureate program may take longer than initially anticipated. Thorough planning with a counselor is essential in order to minimize the number of additional terms needed to earn a baccalaureate degree.)
PREPARING TO TRANSFER TO THE CSU

Transfer - General Education Options

The CSU provides CCC transfers with two options for fulfilling CSU lower division general education requirements.

Students should review the two options described below, and with the help of a Transfer counselor determine which option best meets their educational objective.

Option 1: CSU General Education-Breadth (GE-Breadth) Requirements

Up to 39 of the 48 GE-Breadth semester units required can be transferred from and certified by a CCC or other certifying institution.

General Education Breadth (GE-Breadth) Areas (may be completed separately):

Area A – English Language Communication and Critical Thinking

(24 semester units)

Area B – Scientific Inquiry and Quantitative Reasoning

(9 semester units)

Area C – Arts and Humanities

(30 semester units)

Area D – Social Sciences

(6 semester units)

Area E – Lifelong Learning and Self-Development

(6 semester units)

Area F – Intersegmental General Education Transfer Curriculum (IGETC)

IGETC transfers can use the Intersegmental General Education Transfer Curriculum (IGETC) to fulfill all lower division general education requirements at any CSU campus or any University of California (UC) campus. The IGETC provides transfer students with an alternative to the CSU General Education-Breadth requirements and allows them to meet lower division general education requirements for both the CSU and the UC.

The IGETC requires completion of a minimum of 37 semester units or 56 quarter units of lower division work with a C grade or better in each course (C- is not an acceptable grade in IGETC).

The IGETC areas are as follows:

Area 1 - English Communication

Three courses, one in English composition, one in critical thinking, and one in oral communication (at least 9 semester units)

Area 2 - Mathematical Concepts and Quantitative Reasoning

One course (at least 3 semester units)

Area 3 - Arts and Humanities

At least three courses, with at least one from the arts and one from the humanities (at least 9 semester units)

Area 4 - Social and Behavioral Sciences

At least three courses from at least two different disciplines or an interdisciplinary sequence (at least 9 semester units)

Area 5 - Physical and Biological Sciences

Two courses, one physical science and one biological science, at least one must include a laboratory (at least 7 semester units).

The course requirements for all areas of IGETC are expected to be completed and certified by a California Community College to be accepted by the CSU or the UC prior to transfer (refer to Certification section).

Students who have completed the IGETC requirements and have their educational objectives met can apply for a certification of general education by completing the Certification of Completion of General Education Requirements form.

General Education Breadth (GE-Breadth) students should consult with an advisor/counselor and complete the Certification of Completion of General Education Requirements prior to transfer to CSU.

Certification of Completion of General Education Requirements

Certification is a process completed by the CCC. Certification in any or all areas noted in the IGETC and GE lists signifies that the student has completed the required general education course work in that area(s) at a regionally-accredited institution. CCC and other qualified institutions are authorized to certify completion of up to 39 lower division semester units applicable to CSU GE-Breadth requirements or all of the courses required for IGETC. Certification refers to official verification by a CCC that a transfer student has completed courses fulfilling CSU GE-Requirements.

Transfer students are taking courses that may meet lower division major preparation course requirements. Keep in mind that community college or other courses may be transferred without being articulated. (More information on articulation is available at www.assist.org)

Grade Point Average Calculations

Students who are undecided about which option best meets their educational objectives may choose to complete both areas (Option 1 or Option 2).

Graduate Point Average Calculations (GPA)

Calculations of transfer grade point averages include all transferable units attempted at all colleges attended and are part of transfer admission requirements.

Calculate the GPA by first assigning:

• 4 grade points for each A
• 3 points for each B
• 2 points for each C
• 1 point for each D
• 0 points for each F

Multiply the points assigned for each course by the number of the course units (e.g., a 4-unit class with a grade of A equals 16 grade points but a 3-unit course with a grade of A equals 12 grade points, etc.).

Add the total grade points and then divide the total grade points by the total transferable units attempted to get the transfer GPA. A CSU campus may elect to take into account plus and minus designations used in combination with letter grades by adding 0.3 for each plus and subtracting 0.3 for each minus, except that no college/university grade point value shall be less than 0 or greater than 4.0.

Articulation

Articulation is the process of developing a formal written and published agreement that identifies courses from a “sending” campus (usually a CCC) that are acceptable in lieu of specific courses at a “receiving” campus (generally a 4-year institution such as a CSU campus).

Articulation of courses from CCC to CSU is important to ensure transfer students are taking courses that may meet lower division major preparation course requirements. Keep in mind that community college or other courses may be transferred without being articulated. (More information on articulation is available at www.assist.org)
After students have applied for admission to a CSU campus, they should visit the CCC admission or counseling office to request certification of courses meeting CSU general education requirements. CSU campuses will also accept certification of courses meeting the CSU graduation requirement in U.S. History, the Constitution, and American Ideals. (See “American Institutions.”)

Certification of American Institutions Requirement

The CSU requires each student to be knowledgeable about the Constitution of the United States, American History, and state and local government. The “U.S. History, Constitution, and American Ideals Requirement” is generally known as the Social Sciences or Institutions Requirement. Students can complete this requirement by passing a comprehensive examination if offered by a campus or by completing the required courses (generally two).

All CCC’s have designated courses that satisfy the CSU American Institutions Requirement. Satisfaction of this requirement through completion of specified courses can be certified by the CCC.

(Note: Certification does not guarantee that admission requirements have been met. Students earning less than a C in Areas A and B4 do not meet the minimum CSU admission requirement.)

Transcripts and Verification of Eligibility

Transfer Applicant Provisional Admission

A campus may provisionally or conditionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college level work completed. Campuses may rescind admission for any student who is not found to be eligible after the official transcript has been evaluated. In no case may such documents be received and validated by the university any later than a student’s registration for their second term of CSU enrollment.

Final Transcripts

Final official transcripts from all colleges and universities attended must be submitted prior to CSU enrollment to verify that the student is eligible for admission. CSU campuses may rescind admission, deny admission, or not permit registration or attendance until receipt of final transcripts and admission eligibility has been verified.

Students should request that official transcripts be sent directly to the CSU campus from all colleges or universities previously attended even if no coursework was completed. Transcripts must be received in sealed envelopes from each institution attended. In some cases, transcripts may be sent electronically to CSU campuses.

Students should keep personal copies of all transcripts and test scores for admission application and academic advising sessions. If a lower division transfer student is applying to the CSU, the student must submit official high school and college transcripts as well as ACT or SAT scores. A student with 60 semester (90 quarter) units is considered an upper division transfer student.

High school transcripts and test scores are not required for upper division students. The campus to which the student is applying will provide information about when to submit official high school and other college transcripts.

(Note: Most CSU campuses will admit transfer students based on courses “in progress,” and some will not. Please consult the specific CSU campus or their published materials for campus specific transfer admission information.)

Investigate the Campus(es) of Choice

• Visit prospective CSU campus(es). Some CCC Transfer Centers offer tours of local CSU campuses and sponsor Transfer Days where CSU campus representatives visit the community college. Out-of-state or other transfer students should contact the CSU campus admission or outreach office to schedule a tour.
• Learn more about CSU campuses and related major requirements by visiting www.csumentor.edu, www.calstate.edu, and www.csumentor.edu.
• Check other useful websites such as www.csumentor.edu and www.californiacolleges.edu.

Planning Effectively for Transfer from CCC to CSU

• Make an appointment with a CCC transfer counselor at the CCC Transfer Center to establish an educational plan.
• Let the transfer counselor know once a major or Transfer AA degree major is selected to ensure that you are taking the appropriate courses for transfer.
• Transfer counselors can help determine if a selected major and/or program may be impacted and has higher admission requirements.
• Improve reading and writing skills. Many transfer students report that the greatest difference between their classes in CCC and those at a CSU campus is the amount of writing required in the CSU. This may be true for other students as well. While students are taking courses that prepare them for transfer, they should also work on continued improvement of their reading and writing skills. Obtaining assistance with writing skills while at the community college will prepare students for the demands of university study and help them to pass the CSU Graduation Writing Assessment Requirement for the baccalaureate.
• Visit www.csumentor.edu to learn more about all CSU campuses.
• Begin a transfer CCC planner on CSU Mentor and update it every term. Students can track their progress in meeting admission and general education requirements.
• Check to see if the major is impacted at the campus of choice. Adjust the list of campuses under consideration accordingly. If applying to an impacted major or campus, it is advisable to apply to more than one CSU.
• Visit www.assist.org to review the transferability of courses taken.
• Follow the educational plan and take the appropriate courses every term.
• Review and update annually the information on the Transfer Planner at www.csumentor.edu.

(Note: Transfer students from out-of-state, private colleges and universities and those transferring from one CSU to another CSU may follow the planning process noted above, but should work directly with their home campus and intended CSU campus advisors and admission or outreach staff to ensure a smooth transfer application process. Information on all of the CSU campuses can be accessed at www.csumentor.edu and www.calstate.edu.)

Financial Aid and Financial Planning Activities

• Be aware of all the financial aid rules, policies, and deadlines. The financial aid office or a financial aid counselor can provide this information.
• Use the CSU Cost Calculator (CSUCC) at www.csumentor.edu (click on Financial Aid) to receive an estimate of the financial aid for which you may qualify.
• Attend a financial aid workshop if planning on applying for education loans.
• Review the financial aid information provided at www.csumentor.edu and www.californiacolleges.edu.

• Plan the entire financial picture. What amount of total funds will be needed to be earned, borrowed through loans, or received through grants and scholarships to cover all university related expenses?

Apply Online with CSU Mentor

Students are strongly encouraged to apply electronically via www.csumentor.edu.

• File a CSU admission application on-line through CSU Mentor as early as possible. The CSU begins accepting applications for the fall term preceding October 1.
• Check campus application deadlines as campuses may have different deadlines based on the number of students applying for admission to that campus.
• When requested by the CSU campus(es), send your transcripts directly to the admission office of your campus choice(s).
• If you have college/university coursework in progress, have the final transcripts sent to the CSU campus admission office as soon as the most recent grades have been posted.

Orientation and Early Registration

Students should participate in orientation and early registration to make sure they receive the right courses at the best times for their schedules. All CSU campus websites can be accessed at www.calstate.edu. Select the “Campuses” menu and select the campus of your choice.
CAMPUS AND PROGRAM IMPACTION

Supplementary Admission Criteria

An undergraduate major or campus is impacted when the number of CSU eligible applications received in the initial filing period (e.g. October 1 to November 30 for fall terms) is greater than the number that can be accommodated by the major or campus. In such instances, CSU campuses have been authorized to use supplementary admission criteria to screen applicants to those majors and/or campuses. These supplementary admission criteria may include, but are not limited to:

• Cease accepting admission applications at the conclusion of the initial filing period;
• Require submission of the SAT or ACT regardless of the high school grade point average;
• Rank order first-time freshmen by eligibility index;
• Set a higher minimum eligibility index than that required for CSU admission;
• Review additional characteristics such as socioeconomic or educational factors, space availability in a program or major, indications of overcoming educational obstacles, or exceptional talents; and
• Require completion of specified lower division general education requirements for transfer applicants.

Major/Program Impaction

There are subtle, yet important, differences between major and campus impaction. Major impaction means that the number of applications submitted by fully eligible students to a designated program or major on a CSU campus during the initial filing period exceeds the number of spaces available in that major. However, students may still be admitted to the campus in an alternate major or they may eventually be admitted to the over-subscribed major provided they meet the supplementary admission criteria.

Students interested in an impacted major or campus must apply for admission during the initial application admission filing period (October 1 through November 30 for fall admission). Applicants to majors that are impacted should apply to additional CSU campuses to maximize opportunity for admission. Impacted majors and campuses accept no applications for admission after the initial filing period.

Lower and Upper Division Differences

Most majors are impacted at the upper division level only. Freshmen and lower division transfers often are admitted as pre-majors and must complete prerequisite coursework at the campus prior to consideration for admission to the impacted major. A number of CSU campuses are impacted in some majors or class levels, but CSU Fresno, CSU Fullerton, CSU Long Beach, San Diego State University, San Jose State University, and Cal Poly San Luis Obispo are impacted in all majors.

Campus Impaction

Campus impaction means that a campus has exhausted existing enrollment capacity and receives more eligible applicants for an enrollment category (e.g. upper division transfers) during the initial admission application filing period than can be accommodated and must therefore restrict enrollment to the campus for that category. When impacted, an enrollment category must remain open for at least the initial admission application filing period if the campus decides to accept any applications for that enrollment category. This alleviates the difficult problems of “first come, first served” and allows applicants to impacted majors, programs, and campuses an equal chance during a specified period of time to file admission applications.

Local CSU-eligible first-time freshmen and local upper division transfer students shall be admitted to a local CSU campus on the basis of established CSU system admission policies. However, admission to an impacted campus does not include assurance of admission to a specific major if that major is impacted at the local campus. “Local” first-time freshmen are defined as those students who graduate from a high school district historically served by a CSU campus in that region.

Campuses may use both campus impaction and major impaction simultaneously. For example, a campus could be “campus impacted” for first-time freshmen and use selected “major impaction” for upper division transfers. Both upper division transfers from California Community Colleges and students currently enrolled at the campus would be required to meet the same supplemental admission criteria for admission to an impacted major at the upper division level. Visit www.calstate.edu/impactioninfo.shtml for the most current information.

EDUCATIONAL OPPORTUNITY PROGRAM (EOP)

The Educational Opportunity Program is designed to improve access and retention of historically low-income and educationally disadvantaged students. EOP students have the potential and demonstrated motivation to perform satisfactorily at the campus, but they have not been able to realize their potential because of their economic or educational background. The program provides admission and academic assistance to EOP-eligible undergraduate students and in many cases, the program offers financial assistance to eligible students. Campuses tailor their programs to accommodate the needs of their student population.

Foster Youth Programs

Through campus-wide collaborative efforts, a number of services are coordinated to support foster youth from their transition out of foster care or transfer from a community college to the CSU and through graduation. Services include assistance with admissions, financial aid, housing, orientation, advisement, counseling, life skills, employment and career planning to ensure their success through graduation.

California’s Cross Enrollment Program

The cross enrollment program is designed to enhance the educational experience of California students by providing them with increased access to courses offered by campuses of other public higher education institutions.

STUDENTS FROM CSU OFFICES OF ADMISSION AND RECORDS

Four-year Degree Programs

Students who wish to graduate in four years are encouraged to take advantage of CSU’s four-year degree programs. Even though each CSU campus has developed a four-year program responsive to the needs of the campus community, the common core component of all four-year degree plans is a strong advisement program. Students are expected to meet with advisors each term to plan a program of study that will assure appropriate progress toward meeting degree requirements.

Students must:

• Possess English and mathematics skills needed to handle the demands of university study;
• Declare a major at the time of admission (or shortly thereafter) and not change majors;
• Enroll in a minimum of 15 semester/22.5 quarter units each term;
• Fulfill all academic, grade, and coursework requirements;
• Meet with an academic advisor on a regular basis and heed advice given;
• Follow required administrative and academic policies and procedures; and
• Meet the unit requirement (120-132 semester/180-198 quarter units) for the baccalaureate degree sought.
and nearly three-fourths of CSU students work at least part time while attending classes. Balancing school, work, and family obligations often diverts students from a primary emphasis on their education. If students choose to change majors, enhance their educational experience by taking additional courses, become involved in extracurricular activities, study abroad, engage in one or more internships, or work, they are unlikely to graduate within four years. While time is important, the quality of an educational experience is paramount. In education, there is no substitute for a high-quality learning and growing experience.

CSU is committed to enabling students to control their academic destiny and ensuring that no obstacles deter students from proceeding toward their educational goals at the pace they prefer whether that is the enrolled time-to-degree equivalent of three years, four years, six years or more.

Other Factors

CSU students often take time out of their college programs for personal reasons. This is a major cause of extended time-to-degree. In addition, one-third or more of CSU students work 30 or more hours per week, and nearly three-fourths of CSU students work at least part time while attending classes. Balancing school, work, and family obligations often diverts students from a primary emphasis on their education.

to be successful in college-level work. Those who need extra work will have their entire senior year to prepare further.

**Early Start Program**
Entering resident freshmen who are not proficient in math or “at risk” in English will need to start the remediation process before their first term. All new freshmen students who have not demonstrated college-readiness in mathematics and English will need to begin work on becoming ready for college-level English and/or math before the start of their first term.

**Educational Leave**
Approved educational leave for attendance at another accredited institution of higher learning is not considered an interruption in catalog rights provided such absence does not exceed two years. The absence must be consistent with the CSU definition of educational leave and with CSU policy. Students who have been academically disqualified may lose previously established catalog rights.

**Electives**
Courses that count toward total transfer units or degree, but are not used to fulfill pre-major, general education, major or graduation requirements. If a student has not decided on a major, taking elective courses in different fields is a good way to explore career interests and aptitudes. Check the college catalog carefully to be sure that these courses are transferable to the CSU for at least elective credit.

**Eligibility Index**
A weighted combination of high school grade point average and a score on either the American College Test (ACT) or the Scholastic Assessment Test (SAT). The eligibility index is calculated by multiplying the grade point average by 800 and adding the mathematics and critical reading scores of the SAT ([GPA x 800] + SAT). When using the ACT score, the eligibility index is calculated by multiplying the grade point average by 200 and adding 10 times the composite score from the ACT ([GPA x 200] + 10 x ACT).

**Freshman**
The first year of study for an associate or bachelor's degree. Matriculated students who have completed 0-29 semester units are considered freshmen.

**General Education (GE)**
General education encompasses courses in the arts and sciences that provide students with a broad educational experience. Courses typically are introductory in nature and provide students with fundamental skills and knowledge in mathematics, English, arts, humanities, and physical, biological, and social sciences. Completion of a GE program is required to earn a baccalaureate degree from the CSU.

**General Education-Breadth (GE) Requirements**
General Education-Breadth (GE) requirements refer to a specific program of lower division general education courses that a student must complete as a prerequisite to being awarded a baccalaureate degree.

**Good Standing**
Good standing requires that, at the time of application for admission to the CSU and at the time of admission, the applicant was not under disciplinary or academic suspension, disqualification, dismissal, expulsion, or similar action by the last college or university attended or was not under disciplinary or academic suspension, disqualification, dismissal, expulsion, or similar action at any CSU institution. Individual CSU campuses may have a more restrictive definition of “good standing.” For example, a student on academic probation may not be considered to be in “good standing.”

**Graduation Requirement**
Units, courses, examinations, or academic programs that must be completed to obtain a baccalaureate degree. Graduation requirements include major, general education, U.S. history, constitution and American ideals, and elective courses, as well as campus-specific requirements.

**High School/College Unit Equivalent**
One college-level course of at least 3 semester (4 quarter) units is usually considered equivalent to one year of high school study.

**Impacted Major/Campus**
In the CSU, an undergraduate major or campus is designated as impacted when the number of CSU eligible applications received in the initial filing period is greater than the number that can be accommodated by the major or campus.

**Initial Application Filing Period**
The primary period in which applications for admission for an academic term are accepted by CSU campuses. Applications to impacted majors of study must be filed during this period. Initial filing periods for admission terms are as follows: October and November for fall; February for summer; June for winter; and August for spring.

**Institution of Origin**
The college or university where the student completed the most transferable units or earned an associate degree for transfer. The institution of origin for first-time freshmen is the high school from which the student graduated.

**Intersegmental General Education Transfer Curriculum (IGETC)**
A program of courses that can be completed at a California Community College to satisfy all lower division general education requirements at any CSU or UC campus.

**Junior**
The third year of study for a bachelor's degree. Students who have completed 60-89 semester units are considered juniors.

**Lower Division**
Program of courses designed for the first two years or within the first 60 semester units of study toward a baccalaureate degree, often taken at a community college and transferred to a university. Also refers to freshmen and sophomores.

**Lower Division Transfer**
An applicant who has completed fewer than 60 transferable semester units is considered a lower division transfer. Because of enrollment pressure, most CSU campuses do not accept lower division transfers in order that more space is available for qualified upper division transfer students.

**Program**
A specified set of courses required to achieve a specific objective or degree, such as general education or major requirements.

**Quarter**
A term offered within an academic year, marking the beginning and end of classes. In the CSU, 6 of the 23 campuses are on the quarter system. Each quarter is 10 weeks in length.

**Residency Requirement**
(Campus) students must complete a minimum of 30 semester (45 quarter) units at the CSU campus where the degree will be earned. These units must be upper division.

**Residency for Tuition Purposes**
University requirements for establishing residency are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay tuition on an in-state or out-of-state basis.

**SB 1440**
The Student Transfer Achievement Reform Act (STAR Act) originating from Senate Bill (SB) 1440 requires that California Community Colleges (CCC) and the CSU create a transfer pathway which includes an associate degree for transfer (ADT) created by the CCC that include no more than 60 quarter (60 semester) units and 39 semester (58 quarter) units of general education and 18 semester (27 quarter) units of lower-division major coursework and that is fully transferable to CSU. Students who receive the associate degree for transfer (ADT) are eligible for admission with junior standing and are given priority admission consideration to the CSU system and guaranteed admission to their local CSU. Students admitted to a program or major that is determined by the CSU to be similar to the transfer AA degree are eligible to graduate with no more than 60 semester (90 quarter) units remaining.

**Senior**
The final year of study for a baccalaureate degree. Students who have completed 90 or more semester units are considered seniors.

**Sophomore**
The second year of study for a bachelor's degree. Students who have completed 30-59 semester units are considered sophomores.

**Term**
A specific period of the year during which classes are in session. Examples include fall term and spring term. (See Quarter and Semester)

**Transfer Road Maps**
For transfer students who are uncertain about which CSU campus they will attend, the CSU Transfer Road Maps provide an academic roadmap of coursework for the highest demand majors (commonly accepted among most CSU campuses) that will ensure appropriate academic preparation.

**Transfer Units**
Courses that are transferable to the CSU for baccalaureate credit.

**Transferrable Units**
Credit values for courses recommended by the faculty of a regionally accredited college or university and either certified or otherwise designated as appropriate for baccalaureate credit by the institution and therefore acceptable.
High School Graduation

Q: Can a student establish CSU eligibility if he or she does not graduate from high school?

A: Options for students who do not graduate from high school include achieving passing scores in each section of the General Educational Development (GED) test, or passing the California High School Proficiency Examination. Submission of either a GED certificate or California Certificate of High School Proficiency will be considered equivalent to high school graduation, but completion of all ‘A-G’ requirements must also be demonstrated.

Freshman vs. Transfer Admission

Q: If a student completes college units, either through testing or college attendance, while still attending high school, will the student be considered a first-time freshman or a transfer?

A: A student will be considered a first-time freshman as long as all their college units are completed prior to the end of the summer immediately following high school graduation. For example, a student who will graduate from high school in January and will have completed 24 units via AP examinations and 9 units of baccalaureate-level work at a community college by June, should be admitted on the basis of the high school record as a first-time freshman.
FIRST-TIME FRESHMAN

Laboratory Science

Q: Must the two years in science include both biological and physical science?
A: Yes. However, the courses are not required to be selected from biology, chemistry, or physics as required by UC. The first course must be selected from area a, the second course may be selected from the UC list as an approved laboratory science in the electives area (area g).

Q: How should Integrated Science courses be treated?
A: CSU will require students to complete one life science and one physical science course, selected from the UC “A-G” list. The UC list of certified courses should indicate whether the integrated course is predominantly a biological or physical science course. If it is not indicated, two years of Integrated Science will meet the requirement or an Integrated Science course may fulfill either one year of a life science or physical science.

Q: A student completes chemistry and physics with C or better grades, and has satisfied the UC science requirement. Does CSU consider this completion of the laboratory science requirement?
A: No. This student is lacking the required life science course for regular CSU admission. The student has not satisfied the minimum CSU admission requirement in science.

Q: Do all IB courses taken in the 11th and 12th grades qualify for honors points?
A: Only designated IB courses qualify for honors points.

Q: If the high school attaches an honors indicator to a course on their transcript, should honors points be awarded if the course is not identified on the UC “A-G” course list?
A: No. Only courses identified on the UC “A-G” course list receive honors points, if taken during the 11th and 12th grades.

Q: If the high school offers honors courses on the trimester system, how many honors points should the student be awarded?
A: CSU will grant up to a maximum of 8 honors points – the equivalent of 4 year-long courses. The maximum number of honors points does not increase if the year course is taught on the trimester or quarter system. A yearlong honors course taught on the trimester system is still eligible for a maximum of 2 honors points.

Q: Will score of 3, 4, or 5 on an AP examination replace a D grade in the high school grade point average calculation?
A: No. AP results of 3, 4, or 5 will result in the student receiving college credit and will validate the appropriate subject requirement for admission as a first-time freshman; however, the AP score will not improve the high school grade point average.

Q: Does an honors course completed in 10th grade earn an additional grade point for calculating grade point average?
A: Honors points are awarded for courses taught at the 11th and 12th grade level and for AP and higher-level IB level courses. These courses are identified on the UC “A-G” course list. Up to two semesters of these 11th or 12th grade level courses may be taken in the 10th grade and earn the additional grade point in the high school grade point average calculation.

Q: Are higher-level International Baccalaureate (IB) courses taken in the 10th grade considered 11th or 12th grade courses?
A: Yes.

Q: Can D grades in designated honors courses meet the subject requirements?
A: No. To satisfy the 15-unit college preparatory subject requirements, students must earn C or better grades.

Q: Will of the 12-language requirement is one year, not the two years required by the CSU. Campuses would need verification from the high school that the student had the equivalency of two years of study, as defined by the Model Curriculum Standards, Grades Nine Through Twelve: Foreign Language.

Q: Does ESL taken in high school satisfy the Language other than English requirement?
A: Yes. Regardless of level, ESL courses taken after age 10 in a US school satisfy the two-year foreign language admission requirement.

Q: Can a lower division student who did not meet the high school eligibility index be admitted to the CSU?
A: Lower division transfer applicants who do not meet the high school eligibility index are advised to continue their education at a California Community College and complete 60 or more transferable semester (90 or more quarter) units including at least 30 units of general education (GE) and all Basic Skills GE requirements, before attempting to transfer to a CSU campus as an upper division transfer student. Basic or generic nursing programs and high-unit STEM (Science, Technology, Engineering, Math) majors are often exceptions to this rule.

Q: The student is planning on transferring to the CSU starting in a fall semester. Does he/she need to complete 60 units prior to transfer to any CSU?
A: CSU requires a minimum of 60 semester (90 quarter) units to apply for admission as an upper division transfer student. Some campuses will accept only upper division transfer students. Some campuses may continue to accept lower division transfer students with less than 60 semester (90 quarter) units.

Q: What CSU campuses admit lower division transfer students?
A: Go to www.CSU Mentor.edu and search “Application Filing Status Report.” Campuses provide the information by term (fall, winter or spring). Basic or generic nursing programs are often exceptions to this rule.

Q: If the student is planning on transferring to the CSU starting in a fall semester, does he/she need to complete 60 units prior to transfer to any CSU?
A: CSU requires a minimum of 60 semester (90 quarter) units to apply for admission as an upper division transfer student. Some campuses will accept only upper division transfer students. Some campuses may continue to accept lower division transfer students with less than 60 semester (90 quarter) units.

Q: Can lower division students who did not complete the 15-unit college preparatory subject pattern in high school make up the deficiency by completing the 30 units of General Education Breadth (GE-Breadth) including Area A and B4 required of upper division transfers?
A: Lower division students must make up the individual subject deficiency prior to admission to the CSU. However, GE-Breadth courses may be used to complete the deficiency, and the student will satisfy general education as well as the high school requirement with a single course.

Q: Can students transfer all their community college credits into the CSU?
A: Students can transfer a maximum of 70 transferable semester (105 quarter) units into the CSU to meet baccalaureate degree requirements. Additional units will not apply to the total remaining units the student will need to graduate from the CSU, but may be accepted for subject credit. This means that the additional units may be used to meet GE and major preparation requirements even if the units will not count toward the baccalaureate degree.

(Note: Lower division transfer is a low-priority admission category, except for applicable clinical nursing programs.)

Race, Color, Ethnicity, National Origin, Age, Genetic Information, Religion and Veteran Status

The California State University does not discriminate on the basis of race, color, ethnicity, national origin, age, genetic information, religion or veteran status in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 and the California Equity in Higher Education Act, prohibit such discrimination. Each CSU campus’ Discrimination, Harassment and Retaliation Administrator has been designated to coordinate the efforts to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to this person.

Disability

The California State University does not discriminate on the basis of disability in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination. Each CSU campus’ Discrimination, Harassment and Retaliation Administrator has been designated to coordinate the efforts to comply with all applicable federal and state laws prohibiting discrimination on the basis of disability. Inquiries concerning compliance may be presented to this person.

Sex/Gender/Gender Identity/Gender Expression/Sexual Orientation

The California State University does not discriminate on the basis of sex, gender, gender identity, gender expression or sexual orientation in its programs and activities, including admission and access. Federal and state laws, including Title IX of the Education Amendments of 1972, prohibit such discrimination. Each CSU campus’ Title IX Coordinator has been designated to coordinate the efforts to comply with all applicable federal and state laws prohibiting discrimination on these bases. Inquiries concerning compliance may be presented to this person.

Information on Nondiscrimination Policy above may also be viewed at: www.calstate.edu/sas/nondiscrim.shtml.

For the list of individual campus Title IX coordinators, go to the following URL: www.calstate.edu/sas/documents/CampusTitleIXCoordinators.pdf.

The California State University is committed to providing equal opportunities to male and female CSU students in all campus programs, including intercollegiate athletics.
YES, YOU CAN
EARN A DEGREE
IT'S EASY—START NOW!

HOW DOES IT WORK?
• Earn an Associate Degree for Transfer at a California Community College by completing 60 units.
• Apply to a similar bachelor’s degree program at the California State University and complete 60 units to earn a bachelor’s degree.
• Earn two degrees with 120 semester units.

WHAT ARE THE ADVANTAGES?
• A clear roadmap of courses to prepare for transferring to the CSU, eliminating wasted units or unnecessary coursework.
• Earn two degrees with no additional time or units required.
• Get priority admission consideration in the CSU admission process with your Associate Degree for Transfer.
• Applicants with an Associate Degree for Transfer are guaranteed admission to a CSU campus.

HOW DO I GET STARTED?
• Visit www.adegreewithaguarantee.com for more information.
• Follow and earn an Associate Degree for Transfer (AA or AS-T) while preparing to transfer to the CSU.
• Work with the transfer counselor at your community college to develop a plan.
