Animal Science 440 Anatomy and Physiology

Instructor: Joshua Brownfield D.V.M.

jbrownfield@csuchico.edu

Class Schedule: M/W 1-1:50 pm Butte 101. Lab Section 1: M 2-4:50 pm Plumas 315 and Section 2: W 2-4:50 pm Plumas 315

Office hours: MW 11:30-1pm Plumas 110; Tues 11-1 and by appointment.

Texts Required: Functional Anatomy and Physiology of Domestic Animals (William Reece) and Laboratory Manual for Comparative Veterinary Anatomy and Physiology (Phillip Cochran)

Course Objective: To learn basic anatomy of domestic animal species and become familiar with the comparative anatomical differences among the common domestic species. This course is designed to fulfill the basic anatomy requirements for Animal Science, Biology and Pre-Veterinary students.

Course Grading: There will be 550 points offered during the course of the semester:

- Comprehensive Final: 200 points
- Midterm Exam: 150 points
- Unscheduled Quizzes: 100 points
- Lab Participation and Activities: 50 points
- Group Project and Presentation: 50 points

550 points total

Quizzes will be administered at the beginning of the lecture period. There will be approximately 10 quizzes during the course of the semester with a value of 10pts each quiz. Quizzes cannot be re-taken or “made-up” for any absences.

Check the course Blackboard page for a detailed schedule of lectures and Labs for this semester.
