Course Description
The economics of renewable natural resource use, management, development, and allocation. Conflicts in use, markets for resources, cases of market failure, and economic conservation will be discussed. Prerequisites: ABUS 101 or faculty permission.

Course Objectives/Learning Goals
This course provides students with a solid foundation in environmental and natural resource economics. Students will learn how to use economic concepts to examine environmental externalities, understand optimal utilization of renewable and non-renewable resources, understand the economic techniques for estimating environmental values, as well as understand the concepts of sustainability.

Textbook

Students will be responsible for the material covered in class and the material in the assigned chapters of the text. Students will receive the greatest benefit if they read the assigned chapters before class. You will also be assigned additional readings that will be required. Copies of these readings may either be handed out to you in class, posted online, or you will need to locate and print/copy the documents yourself.

Other Recommended Textbooks (Optional)

Course Policies
- *Behavior: Respect your classmates*. Do not distract others by talking, reading, coming into class late or leaving early, and silence all cell phones before entering the classroom. In addition, you are expected to follow all of the guidelines established under the “Standards for Student Conduct”.
- *Diversity*: I want everyone to feel welcome in class; no disparaging remarks will be tolerated in regards to ethnic background, sex, age, religion, disability, socioeconomic background, etc.
- *Read the syllabus and course outline to be aware of all requirements and deadlines.*
- *Academic Dishonesty* (plagiarizing, cheating, or helping someone else violate the standards of academic behavior): will be dealt with at the instructor’s discretion, with the likely penalty being an “F” for the course. The incident will also be reported to the student affairs disciplinary office for additional actions as outlined in your student handbook.
- *Ask for help if you need it*. I am available outside of class.
**Late Policy**

Students are responsible for handing in assignments on the date they are due. Homework will be accepted late, up to the date of the next scheduled exam. Late homework will only receive ½ credit (grade will be reduced by 50%). Make-up exams will only be allowed with written verification of an unavoidable circumstance and are strongly discouraged. Late papers will immediately be reduced by 20%, with an additional 5% reduction for each additional school day that they are late.

**Grades**

Grades are based on exams, paper/presentation, problem sets, and participation & attendance.

1. Exam 1 100
2. Exam 2 100
3. Final Exam 100
4. Paper/Presentation 100
5. Homework 50
6. Attendance 50

Total: 500 points

Grades will be assigned using the following scale:

<table>
<thead>
<tr>
<th>Percentage Range</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>93% - 100%</td>
<td>A</td>
</tr>
<tr>
<td>90% - 92%</td>
<td>A-</td>
</tr>
<tr>
<td>87% - 89%</td>
<td>B+</td>
</tr>
<tr>
<td>83% - 86%</td>
<td>B</td>
</tr>
<tr>
<td>80% - 82%</td>
<td>B-</td>
</tr>
<tr>
<td>77% - 79%</td>
<td>C+</td>
</tr>
<tr>
<td>73% - 76%</td>
<td>C</td>
</tr>
<tr>
<td>70% - 72%</td>
<td>C-</td>
</tr>
<tr>
<td>67% - 69%</td>
<td>D+</td>
</tr>
<tr>
<td>60% - 66%</td>
<td>D</td>
</tr>
<tr>
<td>Below 60%</td>
<td>Failure</td>
</tr>
</tbody>
</table>

- **Exams/Final Exam**: You will have the entire class period for each exam. Exams may involve essays, short essays, short problems, and multiple choice questions. You may use a simple calculator during exams, but no laptops/tablets or cell phones. The final exam will resemble the other exams, but will be longer and will include cumulative material.

- **Paper/Presentation**: The paper will require you to demonstrate your understanding of economic principles as they relate to a current environmental/natural resource problem or issue. More information will be given at a later time.

- **Homework**: Homework will be given throughout the semester (2-5 times), these assignments are intended to help you learn, feel free to refer to your text or ask questions as needed.

- **Attendance**: You are expected to come prepared to class and participate in discussions. As such, attendance will be taken 10 times throughout the semester and will be worth 5 points for each day. Arriving late (after attendance has been taken), leaving early, or acting unprofessionally will result in 0 out of 5 points. In addition, if your cell phone rings during class you will lose the attendance points for that day.

Welcome to ABUS 341. I hope you have a great semester, good luck.
Course Outline*

Section 1

Topics: Introduction, Sustainability, Environmental Externalities, Optimal Pollution Levels, Methods of Internalizing Externalities.

Textbook Chapters: 1-3, 16, 21. (Additional readings will also be covered)
Exam Date: 9/28/17

Section 2

Textbook Chapters: 4, 5, 13. (Additional readings will also be covered)
Exam Date: 11/2/17

Section 3

Textbook Chapters: 6, 7, 8, 9, 10, 15, 18, 20. (Additional readings will be covered)
Final Exam Date: See final exam schedule.

*Course outline is subject to change and is based upon the chapter titles and sequence from the 3rd Edition of the textbook
