311 Nicholas C. Schouten Ln.
Chico, CA 95928
Tel: (530) 898-6343 FAX:(530)898-5952

On March 27th, 2008, CSU Chico Agricultural Teaching and Research Center (ATRC) will present training on Basic Data Logger Applications to Water Measurement: This is a one half day training targeted at irrigation district personnel. The course will be led by Mike Spiess and Brad Laffins (CSU, Chico). This workshop is offered on behalf of a technical support agreement with the Mid-Pacific Region, US Bureau of Reclamation

Data Logger Course Description

Data loggers are useful instruments for monitoring and troubleshooting water measurement. The course will introduce data logging instruments, various types of sensors, data logger programming, data retrieval, and data analysis. Hands on activities (installation, data retrieval, analysis) will be included in the course. No prior experience with data loggers is required.

The Data Logger course will be held at the **CSU Chico, Agricultural and Teaching Research Center**, which is located near the city of Chico at 311 Nicholas C. Schouten Lane Please RSVP no later than March 13th, 2008 by mailing or faxing the registration form. Course material and snacks will be provided at no cost.

Thursday, February 07, 2008 -8:00 a.m. to 12:00 noon,

Course Outline

- Introduction to Data Logging
- Sensors & Interfaces
- Installation and Setup Activity
- Data logger programming
- Data Extraction Activity
- Data Interpretation Activity
