

**CSU, Chico College of Agriculture Presents an**

## **Irrigation Scheduling Workshop**

**In Chico: One half day Feb. 05, 2009**

**8:00 a.m. to 12 noon**

**Location: CSU Chico ATRC, Shop II Classroom**

**Presenters: Mike Spless**

**Registration and Lab Assistance: Brad Laffins**

Topics are geared to growers• What is irrigation scheduling?• Common methods of scheduling• How to do weather based scheduling and use tools like CIMIS and Waterright

Weather based irrigation scheduling is a method of determining when to irrigate and how much to irrigate. The class will show how this method works and how it can be implemented. A hands-on component make will let participants make a schedule. Irrigation scheduling methods can be used to verify and improve current irrigation practices.

**To resister fill out enclosed registration form or contact Brad Laffins 898-5446.  
Register now as space is limited. Registration fee of \$10 is required for  
Materials.**

More information can be found at <http://www.csuchicoag.org/SCADA>

*This class is funded by a Water Conservation Grant from the Bureau of Reclamation*
