

The Museum of Anthropology at CSU, Chico Presents: The 25th Annual American Visions Photography Juried Exhibition

Going Green

The new buzzword is sustainability. As more people try to account for their carbon footprint, where do you stand on the green path? Beyond preserving the planet, green simply brings one back to summer days, lush forests, new growth and verdant landscapes. Show the judges your vision of going green – whether it be bicycles, solar panels, or the backyard garden.
