DEAF & HARD OF HEARING
Disability Documentation Guidelines

The following guidelines are provided in the interest of assuring that the documentation is appropriate to establish the student as an individual with a disability and to provide a rationale for reasonable accommodations. These guidelines are consistent with the CSU Policy on Provision of Services to Students with Disabilities.

Verification of Deaf or Hearing Impairment:
Documentation shall be provided by a verifying professional qualified to assess the nature and extent of deafness and hearing impairment such as a licensed audiologist, physician, or otherwise trained healthcare practitioner qualified to provide a diagnosis of deafness or hearing loss. Documentation needs to include a clear statement of the hearing loss or deafness, which should include the diagnosis, with degree, type, and configuration of deafness or hearing loss accompanied by an audiogram.

Evaluation must be current. Since assessment constitutes the basis for determining reasonable accommodations, it is in a student's best interest to verification that reflects current level of functioning. If hearing loss is static, an older audiogram may suffice along with confirmation there have been no changes in functioning since the last assessment.

Type of Documentation:
You may submit a letter from your physician on letterhead stationary which addresses the areas above or you may choose to use the Disability Verification form provided here.
