

# Northern California Botanists

**A Cooperative Association of Federal, State, Academic, Consulting,  
and Other Botanists in the Northern California Region**

Northern California Botanists is an organization with the purpose of increasing communication about botanical issues in northern California among federal, state, academic, consulting, and other botanists. Our primary objectives are to establish a communication forum via occasional meetings, an internet list-serv, a scholarship fund for students working on botanical problems in northern California, a job forum, and an annual symposium that focuses on the botany of northern California. We welcome all who wish to join.
