Who Majors in History?
The student of history is a traveler in many lands. Like all travel, the study of the past—whether in a single course or a dozen—broadens and enriches the human mind and the human personality. We do not believe that history is a product—you cannot sell it, eat it, sleep with it, buy it, trade it, or give it to your mother as a birthday present. Instead the study of history helps us to become decent, literate, humane, compassionate, knowledgeable people who recognize that we cannot deal with the present or prepare to cope with the future without an understanding of the past. Moreover, it is from a study of the past that we acquire familiarity with the great tradition of human values and human dignity.

What Can I Do with a History Degree?
The study of history can lead to professional work in the field—as a teacher or professional historian in governmental and private agencies. It is also valuable for those going into other professions, such as government service, law, librarianship, journalism, publishing, labor, business, and theology. But also the study of history produces in general the kind of person who is capable of handling many different jobs and positions where the knowledgeable, the intelligent, the humane, and the perceptive are in demand. People who bring with them a broad understanding of their society and who have command of the English language, spoken and written, are of high value in many fields and to thousands of employers. This means that history majors have a wide variety of careers open to them.

What About a History Minor/Second Major?
History is unique: no field of knowledge is alien to it, since history encompasses all knowledge about the past. The study of history is a supportive and integrative discipline, designed to broaden your knowledge of the past, to support your study in other areas, and to bring to bear the discipline of history on other fields of knowledge. The history department encourages students to minor or to take it as a second major.

Interested in Teaching?
The Single Subject Teaching Credential in Social Science offers pre-professional preparation for those considering teaching history and social studies at the junior high and high school levels. Advising is mandatory.

Honors in History
If you perform well in your major courses you may be invited to pursue an individual research project working closely with a faculty member whose area of expertise matches the topic you wish to investigate.

Certificate Program
The Certificate in Public History prepares students for non-teaching careers as historians. Emphasis is placed on skills and knowledge necessary for public and private sector employment in historic preservation, historic site assessment, and archival management.

Internship Program
By providing practical experience in local museums, libraries, and public archives, internships help students prepare for jobs in public agencies or business.

Faculty
The faculty of the history department at Chico are highly trained and experienced with a reputation for popular teaching and serving student needs unexcelled in the University. Most have published their research, and others have work in progress. Together they offer a diversity of survey and upper-division courses in a wide range of fields.

The Single Subject Matter Preparation Program in Social Science

Course requirements for the Single Subject Matter Preparation Program, 64 units, in conjunction with the Professional Education Program, leads to a Single Subject Teaching Credential.

In most majors, candidates for this credential will normally fulfill the single subject matter preparation program by completing the appropriate education option in the major. Any exceptions to this procedure are noted at the end of this section. In addition to the single subject matter preparation program, completion of an additional professional education program is required to qualify for a California teaching credential. Professional education (credential) programs are available through the School of Education. For prerequisites and other admission requirements to professional education programs, see the “Education” chapter of this catalog.

Your departmental credential advisor is responsible for verifying that the subject matter preparation program has been completed. If you are interested in obtaining a teaching credential, confer with the appropriate credential advisor early in your University career. Department credential advisors can assist you in planning an educational program that meets both major and credential requirements.

Subject matter preparation requirements are governed by federal and state legislative action and approval of the California Commission on Teacher Credentialing. Requirements may change between catalogs. Please consult with your departmental credential advisor for current information.

The Social Science Credential Option within the History major described above fulfills all requirements for the Single Subject Matter Preparation program in Social Science, which along with a professional education program will lead to a Single Subject California teaching credential.
The Master of Arts in History

Continuous enrollment is required. A maximum of 9 semester units of transfer and/or CSU Chico Open University course work may be applied toward the degree.

Graduate Time Limit:

All requirements for the degree are to be completed within five years of the end of the semester of enrollment in the oldest course applied toward the degree. See “Graduate Education” in the University Catalog for complete details on general degree requirements.

The Master of Arts in History requires that at least 27 of the 30 units be taken within the field of history. Three units may be taken in another discipline with prior approval of the Graduate Coordinator.

Prerequisites for Admission to Conditionally Classified Status:

1. Satisfactory grade point average as specified in “Admission to Master's Degree Programs” in the University Catalog.
2. Approval by the department and the Office of Graduate Studies.

Prerequisites for Admission to Classified Status:

In addition to any requirements listed above:

1. Completion of the Graduate Record Examination with minimum scores of 500 on the verbal portion and 3.5 on the analytical writing section.
2. For those not initially admitted to classified status, a postbaccalaureate graduate degree grade point average of at least 3.0 in a minimum of 12 units taken toward completion of the requirements for the MA. The department graduate committee will review grade reports each semester and recommend changes in status to the Office of Graduate Studies.

1. Classified graduate standing and completion at the University of at least 9 units in the approved program.
2. Formation of the graduate advisory committee in consultation with the Graduate Coordinator.
