Quality Assurance Program (funded by Chancellor’s Office): http://courseredesign.csuprojects.org/wp/qualityassurance/qolt/

“The Quality Online Learning and Teaching (QOLT) program was developed to assist faculty, faculty developers, and instructional designers to more effectively design and deliver online-blended courses. The QOLT evaluation instrument, containing 9 sections with 54 objectives, provides guidance and feedback to instructors. In addition, QOLT now includes an optional section on Mobile Platform Readiness (4 objectives). Each of the sections has a built-in rubric that provides feedback based on the instructor’s formative score. In addition, the QOLT program was developed to recognize and share exemplary practices in CSU online-blended courses.”

- Review, evaluate, and update your course to maximize organization, accessibility, academic integrity, peer-to-peer interaction, and technology
- Any instructor (Tenure/Tenure Track, Adjunct/Lecturer, FERP)
- Online, hybrid, blended courses
- Flexible timeline, meeting schedule
- Up to $1000 stipend (PD or payment)
- One-on-one assistance with a mentor and assistance through TLP
