CELEBRATING RESEARCH, SCHOLARSHIP, AND CREATIVE ACTIVITY

Research, scholarship, and creative activity require inspiration. As scholars and practitioners, we are inspired to create, inspired to innovate, and inspired to share our work through publication, exhibits, and dissemination. A campus community that values the goals, products, and accomplishments of its scholars inspires others to pursue similar pathways. Inspired ‘17 begins a new tradition of official recognition and celebration of the extraordinary dedication, accomplishments, and inspiration that CSU Chico faculty and staff demonstrate as they contribute to their scholarly disciplines.

CSU Chico PIs lead and undertake projects and programs that produce fundamental and applied research, a broad spectrum of scholarly and creative products, and valued community service. These activities advance the state of knowledge, expression, and technologies important to the future of humanity and our region, state, nation, and world. The activities also provide powerful learning and training experiences that prepare our students to succeed in the challenges and opportunities of the future.

Thank you for joining us here at the Meriam Library to recognize and celebrate the accomplishments and activities that connect the academic communities of our University and the communities beyond.

Special Thanks
