CHLD 351, Toddler/Early Childhood Development  
Fall 2017

Instructor: Tess Manley, M.Ed  
Class Meets Online  
Office: Modoc 102  
Phone: (530) 898-5250  
Email: tmanley@csuchico.edu; course communications must be done via Blackboard Learn once class officially begins.

Office Hours: Tuesdays 3:30-5:00pm; Thursdays 2:30-3:00pm; as well as by individual appointments  
Prerequisites: CHLD 252 or PSYC 355  

Course Usage of Blackboard Learn  
Copies of the course syllabus and major assignments may be found on Blackboard Learn. You are responsible for regularly checking the online resources, which is accessed through the Chico State Portal.

Course Description and Goals  
This class examines the physical, cognitive, emotional, and psychosocial aspects of growth during the toddlerhood and early childhood (approximately ages 2 through 5), as well as contextual influences (e.g., family, group experiences, socioeconomic status, culture) on children's development. Guided observations of children are required. Online.

Student Learning Objectives  
This course focuses on three primary Student Learning Outcomes and one secondary Student Learning Outcomes. Of primary importance in this course are: SLO 1: Foundations of Child Development, SLO 2: Child Assessment and Study, and SLO V: Critical Thinking Skills. Of secondary importance in this course are: SLO 3: Developmental Context.

Course Content Learning Outcomes  
Upon successful completion of this course, students will be able to:

<table>
<thead>
<tr>
<th>Course Objectives</th>
<th>Learning Priority</th>
<th>Assignments</th>
</tr>
</thead>
</table>
| a. Engage in logical and empirical reasoning regarding major concepts, research methods, and research results in toddlerhood and early childhood. | Critical Thinking Skills (SLO 5)  
Foundations of Child Development (SLO 1)  
Child Assessment and Study (SLO 2)  
Developmental Context (SLO 3) | Exams  
Observation Project  
Class Activities |
<table>
<thead>
<tr>

</thead>
</table>
| b. Report and evaluate scientific research about toddlerhood and early childhood.| Critical Thinking Skills (SLO 5)  
Foundations of Child Development (SLO 1)  
Developmental Context (SLO 3) | Exams  
Reflective Thought Assignments  
Observation Project |
| c. Identify the major research strategies used in studying toddlers and preschoolers. | Child Assessment and Study (SLO 2)  
Critical Thinking Skills (SLO 5)  
Foundations of Child Development (SLO 1) | Exams  
Class Activities |
| d. Apply developmental theory and research to observations of toddlers and preschoolers. | Child Assessment and Study (SLO 2)  
Critical Thinking Skills (SLO 5)  
Developmental Context (SLO 3)  
Foundations of Child Development (SLO 1) | Observation Project |
| e. Interpret toddler and preschooler behavior within a developmental learning environment. | Child Assessment and Study (SLO II)  
Foundations of Child Development (SLO 1)  
Critical Thinking Skills (SLO 5) | Observation Project  
Class Activities |

**Required Texts/Readings (note where available)**

**Textbooks**

**Other readings (or recommended readings)**
As assigned and presented on Blackboard

**Online Course Protocol**

**Student Responsibilities:**
Students are responsible for knowing the content of the syllabus and the course schedule.

Students are responsible for knowing university policies regarding plagiarism. Students are expected to turn in original work that was completed independently unless otherwise indicated in individual assignment instructions (group work).

Students are responsible for submitting assignments by the due date. If you anticipate computer problems, make sure to submit before computer help desk closes, so they can
help you in the event of a problem. Students are responsible for contacting the computer help desk in the event that you experience technical difficulty. This contact information is on the course page. I can not solve your computer problems. Write this number down and keep it near your computer in the event that you cannot access the internet.

Students are responsible for following the instructions set forth in the assignment and for submitting assignments by the due date. Again, if you anticipate computer problems, make sure to submit before the student computing help desk closes, so they can help you in the event of a problem. Students are responsible for contacting student computing in the event that you experience technical difficulty. Remember this number: (530) 898-HELP.

Students are responsible for being aware of announcements and emails that the instructor sends to you. You should check Blackboard for announcements and emails on a daily basis, Monday through Friday, and once on the weekend.

Students are responsible for submitting assignments in the format designated by the university. The university supports MS Word. If your computer does not support this format, then you can submit in .rtf. Do not submit documents in .wps; submissions in this format will not be graded. These submissions will receive a “0.”

Students are responsible for being able to navigate Blackboard Learn to the extent that is required in this course.

Students are responsible for managing the circumstances of their lives.

Instructor Responsibilities:
The instructor is responsible for answering your questions in a timely manner. Most emails and phone calls during the week will be answered in 48-72 hours. Emails and phone calls over the weekend may take up to 72 hours. Do not expect me to be online after 5 pm.

The instructor is responsible for being available during office hours.

The instructor is responsible for creating a positive learning environment. I will make every effort to create an atmosphere conducive to student engagement. This includes my interaction with you and student-to-student interaction.

The instructor is responsible for grading assignments in a timely manner. In most cases I will be able to get assignments back to you within 14 - 21 days.

The instructor reserves the right to alter the course at any time. Please stay tuned in to Blackboard regularly.

The instructor is responsible for creating a positive learning environment. I will make every effort to create an atmosphere conducive to student engagement. This includes my interaction with you and student-to-student interaction.
Instructor is responsible to provide a diverse and responsive (and hopefully fun!) online learning community.

**Assignments and Grading Policy**

There are no make-ups for missed Discussions or Quizzes.

<table>
<thead>
<tr>
<th>Course Requirements</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Discussions (4 @ 15 points each)</td>
<td>60</td>
</tr>
<tr>
<td>Reflective Thought Pieces (4 @ 15 points each)</td>
<td>60</td>
</tr>
<tr>
<td>Observation Project and Research</td>
<td>80</td>
</tr>
<tr>
<td>Quizzes (12 @ 10 points each)</td>
<td>120</td>
</tr>
<tr>
<td>Midterm 30</td>
<td></td>
</tr>
<tr>
<td>Final 30</td>
<td></td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>380</strong></td>
</tr>
</tbody>
</table>

Total points will be converted to an overall percentage to determine your final course grade.

**Discussion Topics:**
I will post discussion topics relevant to course content through the discussion tab. Students are required to provide a 250 word (minimum) response to the discussion topic and respond to another students’ discussion response (100 word minimum). **No make-ups for Discussions.**

**Reflective Thought Pieces (RTP’s):**
RTP’s are 1-2 page written assignments involving real world applications of content learned in class and are relatable to students’ personal experiences. Instructions are accessed and completed assignments are submitted through the Assignments link.

**Observation Project:**
The Observation Project and Research is composed of multiple components. The objective is for students to synthesize information learned throughout the course and apply that information to live and/or approved video observations. Students will complete a written report of their observation. Students may also create an oral or video presentation that will include current research as evidence. Requirements, information about observing at the Associated Students Child Development Laboratory at CSU Chico (ASCDL) for the assignment and submission instructions are located in a specific Bb Learn folder.
Quizzes:
Quizzes are non-cumulative, open book, multiple choice or true/false questions based on
the course content for the assigned topic(s). Quizzes focus mostly upon textbook content.
Quizzes are timed and students may take the quiz twice during the timed sitting; the
highest score will be recorded. Quizzes are accessed through the Quizzes folder. Students
are expected to take quizzes as individuals; collaboration on a quiz constitutes cheating.
Students may not share the quiz questions or their answers to quiz questions with other
students. This constitutes unauthorized access to test materials; these students will be
reported to Student Judicial Affairs. **No make-ups for Quizzes.**

Please see specific instructions for each course requirement for information on how to submit
and how each assignment is graded.

Please see the course schedule for due dates for course requirements.

**Changes to Course Assignments, Schedule or Syllabus**
The course instructor maintains the right to make changes at any time to meet the strengths,
needs and interests of the CHLD 351 learning community within the social and cultural
context that we create. The course instructor is also committed to communicate changes (if
any) as soon as possible on Blackboard. Staying “tuned in” (checking announcements and
class messages/e-mails on Bb) is always recommended.

**Total points earned in the course will be converted to a percentage. Final grades will be
calculated as follows:**

<table>
<thead>
<tr>
<th>Grade</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>100-93</td>
</tr>
<tr>
<td>A-</td>
<td>92-90</td>
</tr>
<tr>
<td>B+</td>
<td>89-87</td>
</tr>
<tr>
<td>B</td>
<td>86-83</td>
</tr>
<tr>
<td>B-</td>
<td>82-80</td>
</tr>
<tr>
<td>C+</td>
<td>79-77</td>
</tr>
<tr>
<td>C</td>
<td>76-73</td>
</tr>
<tr>
<td>C-</td>
<td>72-70</td>
</tr>
<tr>
<td>D+</td>
<td>69-67</td>
</tr>
<tr>
<td>D</td>
<td>66-60</td>
</tr>
</tbody>
</table>

**60% or above indicates a passing grade**

<table>
<thead>

</thead>
<tbody>
<tr>
<td>F</td>
<td>59 or below</td>
</tr>
</tbody>
</table>
How to Contact Your Professor
All email correspondences should be through Bb Learn messages. You will get a much faster response, as I will recognize your name as a student in my class and give you priority. You may visit me without an appointment on campus during my office hours. You can chat with me or call me at 530-898-tbd during office hours. Don’t hesitate to call; I like putting a voice with your name. You may also email and arrange a time to talk if my office hours are not convenient for you.

Attendance in the Course for Online Students
Your instructor understands that online students choose this form of education so that they can attend higher education from a distance, continue to work, raise families, and attend classes simultaneously (or any combination of these). Online students are not required to be logged in to the class at specific times during the day. It is essential that students make timely progress throughout the course. There are readings that are assigned, and class assignments that are due, so not logging in regularly will put a student very far behind and make it hard to keep up. Daily progress is crucial for success in this class.

Course Usage of Blackboard Learn—This is very important!
Copies of the course syllabus and major assignments may be found online in the course. You are responsible for regularly checking the online resources, which are accessed through the portal at Portal. Plan to log on at least once every day (except holidays). If the portal is down or not working, you can access Bb Learn through the TLP website at this link TLP.

Required Readings
Required readings are located in your textbook (you do have the option to purchase an e-book version of the text through the bookstore) and on Blackboard Learn. You are responsible for making sure that you can open the readings. If you cannot open a reading, contact student computing. A complete reading list with assigned dates is in the course schedule online.

Other Equipment Requirements
Students may be required to purchase a microphone and/or earphones (or headset) that is compatible with your computer. They can be purchased for about $20 at retail stores. Some computers come already equipped with this technology, so check before purchasing. This will enable you to communicate with the class and to complete assignments. If you have any questions please contact computer help desk.

Dropping and Adding
You are responsible for understanding the policies and procedures about add/drops, academic renewal, etc., found in the CSU Chico University Catalog. You should be aware of the new deadlines and penalties for adding and dropping classes.

Assignments and Grading Policy
• Assignments turned in late will lose points. All work in this course is submitted online to the Blackboard platform. Assignments will lose 10% of potential points for each 24 hour period they are late, up to 3 days. No assignments will be accepted after 3 days past the due date. See schedule for specifics. Weekend days not excluded.
• There will be no make-up for Discussion or Quiz assignments.
• Late policy does not apply to extra credit - no extra credit will be accepted late.
Papers, as well as extra credit opportunities, have strict (non-flexible) requirements that MUST be met to receive credit, so be sure you to ask if you have any questions.

**University Policies and Campus Resources**

**Academic Integrity**
Have integrity. Unless otherwise indicated on individual assignment instructions, all student work is expected to be original and completed independently. Students are expected to follow university policies for academic honesty, and are expected to report to me classmates who violate university policies. Copying another student’s work of any kind, helping another student cheat, cheating on a quiz or having unauthorized access to quiz material and assignments constitutes violations, and such students will be reported to university authorities. Plagiarism involves copying material or ideas and presenting that material as if it were your own, without appropriate citation or quotation marks. This includes internet sources and papers that other students have written. Misuse of sources includes incorrect citation of a source, such as failing to provide quotation marks or page numbers in copied material. Students who plagiarize, misuse sources, cheat on quizzes or assignments earn a “0” for that quiz or assignment, and will be referred to judicial affairs. Students who plagiarize, misuse sources, or cheat on 2 or more requirements will earn an “F” for the course. Students are expected to be familiar with the University’s Academic Integrity Policy. Your own commitment to learning, as evidenced by your enrollment at California State University, Chico, and the University’s Academic Integrity Policy requires you to be honest in all your academic coursework. Faculty members are required to report all infractions to the Office of Student Judicial Affairs. The policy on academic integrity and other resources related to student conduct can be found at [Student Judicial Affairs](#).

**Campus Policy in Compliance with the American Disabilities Act**
If you need course adaptations or accommodations because of a disability, please make an appointment with me as soon as possible. Students with disabilities requesting accommodations must register with the ARC Office (Accessibility Resource Center) to establish a record of their disability. Special accommodations for quizzes require ample notice to the testing office and must be submitted to the instructor well in advance of the scheduled date. [ARC](#).

**Title IX: Confidentiality and Mandatory Reporting**
As a Chico State instructor, one of my responsibilities is to help create a safe learning environment for Chico State students. It is my goal that you feel able to share information related to your life experiences in classroom discussions, in your written work, and in our one-on-one meetings. I will seek to keep information you share private to the greatest extent possible. However, I am required to share information regarding sexual misconduct with the University.

Students may speak to someone confidentially by contacting the Counseling and Wellness Center (898-6345) or Safe Place (898-3030). Information about campus reporting obligations and other Title IX related resources are available here: [Title IX](#).
**Department of Child Development Mission Statement:**
Within the context of the broader university commitment to higher education, the Department of Child Development offers opportunities for students to engage in the purposeful acquisition and integration of child development theory, research, and practical field experience.

Specifically, the program centers on learning the foundations of child development (prenatal through adolescence); assessing children and environments (developmental needs, behavioral guidance, home, school, community); analyzing developmental contexts (including gender, ethnicity, social class, family, peers, culture); applying critical thinking skills in personal and professional settings; and influencing character and behavior.

**Department of Child Development Vision Statement:**
Students in the Department of Child Development understand the development and environments that affect children and families. Students apply this knowledge, personally and professionally, in a variety of settings, including human services and education. Faculty facilitate students' professional development by fostering collaborative learning environments that integrate high-quality teaching, mentoring, promoting scholarly activities, guiding relevant practical experiences, and modeling leadership. Graduates of the program are knowledgeable and reflective professionals with field experience, who recognize and value the uniqueness and diversity of children and families within and across multiple contexts.

**IT Support Services/Student Computing**
Computer labs for student use are available (Labs) located on the 1st floor of the Meriam Library room 116 and 450, Tehama Hall Rm. 131 and the BMU Room 301. Additional labs may be available to students in your department or college.

**Student Services**
Student services are designed to assist students in the development of their full academic potential and to motivate them to become self-directed learners. Students can find support for services such as skills assessment, individual or group tutorials, subject advising, learning assistance, summer academic preparation and basic skills development. Student services information can be found at Student Services.

**Student Learning Center**
The mission of the Student Learning Center (SLC) is to provide services that will assist CSU, Chico students to become independent learners. The SLC prepares and supports students in their college coursework by offering a variety of programs and resources to meet student needs. The SLC facilitates the academic transition and retention of students from high schools and community colleges by providing study strategy information, content subject tutoring, and supplemental instruction. The SLC is online at Student Learning Center. The University Writing Center has been combined with the Student Learning Center.
Child Development Major Specifics
The Child Development Major Cumulative Portfolio, an outcome of the Child Development Senior Internship CHLD 495

In order for the Department of Child Development, and more importantly, the student to assess whether or not they have met the Student Learning Outcomes, a final cumulative portfolio will be required from Child Development students. Within this cumulative portfolio, students will be asked to reflect upon what they have learned and how they can apply learned material upon graduation. In order for students to reflect upon their own personal growth and development, they will be asked to compile a cumulative portfolio of their college/university work. Students are encouraged to safeguard all assignments as they will be valuable in compiling the Child Development Major Cumulative Portfolio.

Student Learning Objectives (SLO)
The Student Learning Objectives (SLO) encompasses five Strategic Learning Priorities. Upon graduation as a Child Development Major, you are expected to be knowledgeable in these five Strategic Learning Outcome Areas:

1. Foundations of Child Development
   Students will demonstrate knowledge of the theoretical and empirical foundations of the discipline.

2. Child and Environmental Assessment and Study
   Students will demonstrate knowledge of assessment issues and perform qualitative and quantitative assessments of children and their environments.

3. Developmental Context
   Students will demonstrate knowledge of the multiple environmental contexts in which children grow and develop, and will be able to analyze systems that support children’s well-being.

4. Professionalism
   Students will engage in professional behavior appropriate to the discipline in professional contexts.

5. Critical Thinking
   Students will apply critical thinking and scientific methods of thinking (including logical and empirical reasoning) to issues regarding children’s well-being.
