Mediated Learning Space

A standard set of classroom technology allows faculty to walk into any room with the same set of expectations. Having the same capabilities and controls in the classrooms give faculty confidence that they can walk in and manage their instructional environment no matter where they are scheduled to teach. Standardized technology also allows the university to better leverage pricing, monitoring systems, service, backup and support personnel training and efficiencies.

The Concept:

Mediated Learning Space

Provide a learning space that provides a standard set of classroom technologies for a mid-size room.

Mediated Learning Space

This space has a ceiling-mounted projector and an instructor’s cart with a computer, monitor, and document camera. The media controller also allows for the connection of an instructor’s mobile device.

**Pros**

- Standard technologies
- Centrally managed computer
- Large projected image
- Easy to use media controller

**Cons**

- Cost and time to build infrastructure

**Equipment Costs**

<table>
<thead>
<tr>
<th>Equipment</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Projector</td>
<td>$1,600</td>
</tr>
<tr>
<td>Computer</td>
<td>$1,200</td>
</tr>
<tr>
<td>Instructor Cart</td>
<td>$1,500</td>
</tr>
<tr>
<td>Media Controller &amp; A/V Equipment</td>
<td>$8,700</td>
</tr>
<tr>
<td><strong>Total:</strong></td>
<td><strong>$13,000</strong></td>
</tr>
</tbody>
</table>

*Does not include shipping, facilities or networking costs. All projects in Academic Spaces must be submitted through Tom Ussery.*
