CMSD 220 Introduction to Communication Disorders
Communication Sciences and Disorders (CMSD) Program
CSU, Chico Course Syllabus
3 Units, Fall 2018

COURSE CONTACT INFORMATION

Faculty: David McCoy, Ph.D., C.C.C., Assistant Professor and Speech-Language Pathologist (SLP)
Office: AJH 114???????
(behind Gateway Science Museum and near Bidwell Mansion)
Office Phone: 530.898.?????
Email: dkmccoy@csuchico.edu
Preferred Contact is via email
Please include the course number in the subject line for emails related to this course and sign your name.
Office Hours: Monday 2:15 p.m. – 4:15 p.m; Tuesday 12:30 – 2:30 p.m.
Other times may be considered for an appointment.
Classroom & Time: ARTS 112; Monday, Wednesday, Friday, 1:00 – 1:50 p.m.

Updates to the syllabus, schedule, & office hours will be posted and announced via Blackboard (Bb). The most current schedule is posted on Bb.

PREREQUISITE INFORMATION

This course is a prerequisite for other CMSD courses. You must receive a passing grade in this class in order to enroll in CMSD courses for the spring semester and other future CMSD courses. The CMSD Program faculty will review exceptional requests for consideration.

This course is best together with CMSD 290 Phonetics and CMSD 362 Anatomy & Physiology of Speech and Hearing Mechanisms. Students are strongly encouraged to take the course with the peer cohort with whom he or she will proceed through the upper-division major courses.

COURSE DESCRIPTION

A survey of the normal processes of communication and of the disorders associated with parameters of communication (i.e., articulation, language, voice, fluency, and audition). The course will also include an overview of the professional aspects of speech-language pathology and audiology.
COURSE MATERIAL

Required Technology

- **Purchase** access to [www.masterclinician.org](http://www.masterclinician.org)
- A 2-year subscription is most cost effective.
  - Other courses using the online videos in the future: CMSD 431, CMSD 435, CMSD 451, CMSD 470, and possibly CMSD 441.
- Access to the internet via a browser.
- Use of PDF reader, Microsoft Word, Google Docs, Apple Pages, or equivalent and Microsoft PowerPoint, Google Slides, or Apple Keynote.
  - Note: assignments need to be submitted as .docx, .pdf, or .pptx files no matter the developer of the applications.

No Required Textbook Access

No required textbook for purchase. Required readings and resources will be provided via Bb and the MLIB Course Reserves.

Recommended Textbook Access

You can rent, purchase, borrow, or share the recommended textbook. It can be purchased at the Wildcat Bookstore on campus or from various online vendors: barnesandnoble.com, chegg.com, and amazon.com to name only a few, or from the publisher (Elsevier) directly as an ebook or hardcover.

Additional Required or Recommended Resources

- [www.asha.org](http://www.asha.org) and [www.asha.org/students](http://www.asha.org/students) and [www.nsslha.org](http://www.nsslha.org)
- You can join the National Student Speech, Language, and Hearing Association’s (NSSLHA) national chapter for expanded access to the ASHA website.
  - ASHA publications can also be accessed via the campus Meriam Library’s (MLIB) website if you only join the local chapter of NSSLHA.
- The NSSLHA Chico State is a local chapter and is *not* the same as joining the NSSLHA national chapter. This is admittedly confusing.
  - NSSLHA Chico State is an excellent resource for special guest presentations on a variety of topics, leadership development, contributions to the community, peer networking, and affirmation of your interests in the practices of speech-language pathology, audiology, and communication disorders-related careers.
- Additional websites and resources are available within Bb.
COURSE REQUIREMENTS

In-Class Activities and Related Out-of-Class Homework
- Do not come to class with contagious illness. Sick days are a common professional practice for speech-language pathologists, audiologists, SLP assistants, and other jobs. In order to protect patients/clients/students, stay away from class when contagious.
  - Extended illness may involve the Accessibility Resource Center.

Examinations
- 75 points
- 3 examinations, 25 points each
- Examinations will be administered throughout the semester and will include information from readings and other linked or provided resources, lecture lessons, discussions, and assignments.
- Exams will be announced as in-class or out-of-class.
- Exams may be provided in class, ScanTron exam forms will be provided when necessary, or via Blackboard online.

Final Examination
- 50 points
- The official final examination day and time will be available at the end of the 4th week of the course and posted to your portal/schedule.
- The unofficial and estimated final examination day and time is: Wednesday 12/13/17 from 2:00 p.m. – 3:50 p.m.

ASHA Observation Clock Hours
- The faculty of the CMSD Program will provide all necessary observation opportunities for clock hours during the courses in the CMSD major sequence.
- No additional voluntary or community observation experiences are required beyond those provided in each course.
- 4 hours will be completed in this course.
- Observations can be completed after the due date for ASHA Observation Hours credit but for 0 points towards the course total.
- The master’s program in speech-language pathology must provide the opportunity for students to complete a minimum of 400 supervised clinical practice hours, 25 of which may be in clinical observation; 325 of these hours must be attained at the graduate level.

Project Related to Communication Disorders
A complete description will be available on Bb.
40 points

Grading Summary of Requirements
will be assigned on the basis of the above listed course requirements.
- In-class and homework activities 120 points
- Exams 125 points
• Project 40 points
• Observations 40 points
• Total course points possible: 325

Alternative Coursework
Students can propose alternative assignments/assessments for any course activity, learning lab, assignment, or project. Alternative assignments will be solely approved at the discretion of the faculty and considered when proposed with sufficient advance notice to the faculty. Alternative coursework cannot be in lieu of participating in regularly scheduled class attendance.

Course Objectives
