Summer 2014 Graduate Credit Available

The summer 2014 Math Project workshop “Creating a Common Core Classroom,” can also be taken for three units of graduate credit. The standard workshop will run as scheduled for six days; the graduate course will require some additional out of class work and two additional days of attendance. More information on the topics covered in the course can be found on the Math Project website:

http://www.csuchico.edu/cmse/teachers/cmp/index.shtml

Teachers should expect to pay the special rate of $230 per unit for the course, although in some cases a Math Project stipend could offset the cost. While admissions to the current CSUC MS program are suspended, these units could be applied toward completion of a future CSUC MS program, or transferred to another university.

Those interested in taking this course should save themselves a spot by registering through the Math Project website:  http://www.csuchico.edu/cmse/teachers/cmp/index.shtml  (please note on the registration form the intention to use the workshop for graduate credit) and later pay for the course through the Office of Continuing Education. To secure a spot in the course please sign up as soon as possible, as space is limited.

In summary:

•  **What:** Math 698: Creating a Common Core Classroom; 3 units; Taught by M.E. Matthews

•  **Where:** CSUC Main Campus

•  **When:** 9 am-3:30 pm June 16-19, 2014 and June 23-26, 2014

•  **How to sign up:** For now, fill out the Math Project registration form here:  http://www.csuchico.edu/cmse/teachers/cmp/index.shtml  . Registration and payment for the graduate credits will be available later through the Office of Continuing Education.

•  **Questions?** Contact Tierra Lloyd:  ttlloyd@csuchico.edu.

We look forward to seeing you this summer!

Your Input is Needed:

As we consider the future of the MS in Mathematics Education program, we are particularly interested in catering to the availability, interests, and resources of local teachers. With that goal in mind we have created a very short (five question) survey which will be used to shape the direction of the program. Please take a few minutes to let us hear your voice:
