[1] Select 5 units from upper-division Computer Science (CSCI) or Computer Information Systems (CINS) courses, and/or upper division Math courses that meet a requirement for the minor in Mathematics. A maximum of 3 units may be taken for credit/no credit grading.

Note: CIVL 175 makes a good choice for the GE B2 requirement. MATH 217 may be taken instead of CSCI 217, and is recommended for those pursuing a Minor in Mathematics; however, you will then need to take a course to meet GE Area A3.

[4] You can take classes in alternative orders as long as the prerequisites are met

[5] Many of the upper division courses are only offered in certain semesters so you should be aware of this for planning.
