Ageism is rampant in our society and the vast majority of problems we associate with aging are actually a product of ageism. What is new with “ageism” is that these problems affect a larger segment of our population – The Baby Boomers.
Everyone fears growing old but we can change all that and it is our duty to do so!
With age, we become AGewise and our culture needs to realize the benefits of aging, such as, acquiring experiences that mature our judgment and lowers our risk-taking.
