

# *Conversations on Diversity*

*DNA: Do Not Assume: Personal stories about life and strategies from students with disabilities*

*Facilitated by Lauri Evans, Disability Support Services Advisor*

Wednesday, October 7  
Noon~1:00 pm  
BMU 210

In recognition of Disability Awareness Month, students with disabilities will share their stories about life and strategies for success. These students find a way to balance life challenges while celebrating their right and ability to earn their college degree. They are natural fighters, and their stories show that our students have powerful voices! There are 54 million Americans with disabilities, including 1 in 11 college students.

Join us as our Chico State students with disabilities tell their own stories.

**Bring your lunch and join us!**

Contact The Office of Diversity at 898-4764 for more information
