Conversations on Diversity

AIDS in the 21 Century: Still a Human Rights Issue

Wednesday, October 6  
Noon - 1pm  
BMU 210

In Chico, in 2010, HIV/AIDS seems “old news, no longer” a pressing issue. As newspapers tout promising research and possible vaccines and as other concerns seem more immediate, AIDS/HIV has been pushed out of most people’s minds.

What is the current state of AIDS/HIV infection and research? What is being done... and what still needs to be done? How does the continuing AIDS/HIV epidemic affect us all?

Join Conversations on Diversity for a panel discussion with representatives from Butte County Public Health and Caring Choices to explore the human cost of HIV/AIDS.

Bring your lunch and join us!
