Office of Admissions
Annual Report
2016-17
The mission of the Office of Admissions at California State University, Chico (CSU, Chico) is to achieve general university and specific college and department enrollment goals while providing exceptional service to prospective students and their families, along with supporting the work of secondary and community college counselors, the CSU Chancellor’s Office, and other internal and external colleagues and constituents that rely upon the Office of Admissions for information and service.

The Office of Admissions’ efforts support Chico State’s mission to be:

“committed to assist students in their search for knowledge and understanding and to prepare them with the attitudes, skills, and habits of lifelong learning in order to assume responsibility in a democratic community and to be useful members of a global society.”

Specifically, the Office of Admission’s goals will strive to:

1) Enroll the desired mix of quantity and quality First-time Freshman (FTF) and Transfer students using meritocratic standards while ensuring access for local service area and traditionally disadvantaged students, and achieve the ethnic diversity representative of California’s graduating secondary school populations with particular emphasis on local service area schools. (University Strategic Priorities: 3, 6, and 8; Student Affairs Goals: 1)

2) Increase the quantity and quality of applicants through effective marketing of Chico State’s mix of desirable qualities; location and campus, academic programs and their quality, social climate, cost, personal and career development opportunities, and alumni support network. (University Strategic Priorities: 3, 5, and 8; Student Affairs Goals: 2)

3) Respond to inquiries, visits and applications more quickly and effectively than our competitors through measured use of CRM. If possible, include acknowledgement of previous interaction(s) in our responses with the goal of building a long-term relationship with each prospect. (University Strategic Priorities: 3 and 6; Student Affairs Goals: 2)

4) Counsel and recruit local service area and California secondary and community colleges students regarding public postsecondary opportunities in California and Chico State in particular. (University Strategic Priorities: 3 and 4; Student Affairs Goals: 3)

5) Collaborate with the campus community and CSU colleagues to achieve mutual enrollment goals and to maintain close communication links regarding admission, diversity, and enrollment issues. (University Strategic Priorities: 1, 6, and 8; Student Affairs Goals: 1, 3)

6) Support the CSU Chancellor’s Office programs and goals through leadership and participation in programs such as transfer days and college night collective registration process counselors’ conferences, CSU workshops, and timely responses to information requests. (University Strategic Priorities: 3, 5, and 8; Student Affairs Goals: 1)

7) Maintain the highest level of professional standards and ethics as embodied in the Statement of Principles of Good Practice endorsed by the National Association of College Admissions Counselors (NACAC) and other recognized professional associations. (University Strategic Priorities: 2, 3, and 8; Student Affairs Goals: 1)

As the point of first contact between students, their families, and the University, the services and activities provided by the Office of Admissions (ADMS) are at the very front of the graduation pipeline and set the tone as to how the University is perceived at large.
