Building has a Fire Sprinkler System (shelter in a room well away from fire area **if designated areas or stairwells cannot be accessed – call 911 asap).*

Important Evacuation Information:

All campus buildings have Floor Evacuation Coordinators (FEC’s) on each floor that have been trained to assist others during evacuations. Please speak to your Instructor and/or College Department office staff regarding evacuation procedures; they will alert the Floor Evacuation Coordinators so they can be aware of your needs for assistance during an emergency.

It is critical that others know that you will be taking shelter in a designated location. These areas are checked by FEC’s during the evacuation; however, we need to be certain that First Responders (Fire/Police) know where you are –please share your plan!

It is also highly recommended that you visit the Campus Emergency Preparedness website and review “Evacuation Procedures for People with Mobility Impairments.” It will provide you guidelines and tips to become better prepared for an emergency. The first step is to form a plan – then share and practice the plan with others who may be assisting you during an evacuation.

If you need further assistance or have any questions regarding Emergency Preparedness, please contact the Accessibility Resource Center, Student Service Center, Room 170. (530) 898-5959.

You may also contact the University Emergency Preparedness Coordinator:
