Evacuation drills are conducted in accordance with Executive Order No. 1056 and CCR, Title 19, Office of the State Fire Marshal. All building occupants are required to evacuate upon notification.

The drills are an integral part of the University's Emergency Preparedness Program and are designed to evaluate our disaster readiness as well as provide valuable training for both the occupants and the Floor Evacuation Coordinators.

We request both your cooperation and participation during these events, posting notices or leaving the building to avoid the drill are not acceptable practices and are highly discouraged as your readiness for emergencies may be compromised by these actions. Leaving the building prior to the alarm sounding may require future drills to become unannounced. This would cause greater disruptions to academic operations.

Please contact the Department of Environmental Health and Safety at 898-5126 if you have any questions or concerns.
