

New Campus Arboretum Plaques

With the financial support of Lori Hoffman, Vice President for Business and Finance, the Facilities Planning department purchased over 300 new plaques for the campus arboretum. The new plaques, which have the common and scientific names imprinted, were hung over the 2010 winter break.

The new plaques are designed to allow campus and

community members to easily identify the over 200 species of woody plants located on the CSU, Chico campus and at Bidwell Mansion Park.

Wes Dempsey hanging a new arboretum plaque on a Toyon tree

Efforts for re-labeling the arboretum were supported and guided by Wes Dempsey, faculty emeritus, with the help of friends of the arboretum.

For a self-guided tour you can purchase a ***Campus Tree Map and Guide***, available in the Biology Department (Holt 205) and at the AS Bookstore in the BMU (\$2.00). Guided Arboretum tours are offered in the spring and fall.
