8th Bi-Annual GATEWAY CAREER DAY

CAREERS IN RENEWABLE CLEAN ENERGY

Presented by Wells Fargo Bank

Who: High School Students

What: Learn about clean energy careers concerning conserving energy, developing alternative energy, reducing pollution or recycling.

Where: Gateway Science Museum, 625 Esplanade

When: Monday November 7th, 3:30-5:00pm

Admission: FREE with valid student photo ID

With environmental and sustainability challenges moving to the forefront of business’ and governments’ concerns, the field of renewable and clean energy is growing rapidly. The Gateway Science Museum is proud to host Careers in Renewable and Clean Energy Career Day for local high school and college students.

Students will meet with science professionals and learn about their experiences – how they got into their profession, what their day to day tasks are, as well as what they love about their career. There will be an opportunity to talk to each scientist one-on-one who may offer advice and answer questions students may have.

There will also be time to explore our current exhibit: Great Balls of Fire: Comets, Asteroids, Meteors. Snacks to be provided. Participating students are eligible to win PRIZES!

For more information, please contact jedmunson@csuchico.edu or (530) 898-5130.

********************************************************************

1 Lower division college & university students, and class teacher/advisor are also welcome.
2 This is for students only – parents and siblings are encouraged to visit the museum at another time.
3 GSM staff, volunteers, commission, board and immediate family members are not eligible for prize drawings.
