THE HISTORY OF THE GEOGRAPHY AND PLANNING DEPARTMENT
1887-2014
A Temporal and Spatial Adventure
Geography Classes on Field Trips
1903 and 2014

Who Doesn’t Remember Geography Field Trips?!
Where is Chico?
Original two-year degree required 20 weeks at six hours a week of environmental and human geography curriculum.
When the Chico State Teachers College Opened

• Geography instructors at Chico from 1889-1907
  – Washington Wilson, A.B. - arithmetic, geography, & physics, 1889-1898
  – Elmer I. Miller, Ph.D. (Columbia) – history, geography, & political science, 1899-1918
  – Maxwell Adams, Ph.D. (Chicago) – chemistry, physics, & physical geography, 1902-1907

• The transition to Chico State College (1935)
  – Clarence Studley, M.S. (Berkley) – geography, geology & physics, 1907-1946
  – Peveril Meigs III, Ph.D. (Berkley) – cultural and physical geography, 1929-1942
**Faculty**

President Osenbaugh,
Mr. Studley...Vice-President, Geography, Trigonometry
Miss Barney..............................Dean of Women
Mrs. McQuade..........................English Department
Mrs. Cady...............................Science Department
Miss Lennon................................Music
Dr. Miller................................History
Miss Ealand.............................Industrial Art

**1907-1946**

Acting President 1930-1931
Vice President 1918-46
Head of Geography & Geology 1930-39
Social Science and Commerce 1940-46

Known for his keen sense of humor, Mr. Studley is actively interested in students, and he is very fond of golf and baseball. Northern California has been the scene for most of his life and career.

Clarence Knight Studley 1907-1946
Early Publications
1912 & 1913

–C.K. Studley, M.S.
Prof. Studley teaching summer school session physical geography class at Sisson, Siskiyou County. Chico Normal School’s summer campus at base of Mt. Shasta.
To Faculty and Students:

It was with deep regret that I found it necessary to sever active relations with Chico State College. My thoughts and good wishes will always be with those whose friendships have made my many years of service very pleasant. I hope these years have also been worth-while to all with whom I have been associated.

Sincerely,

C. K. STUDLEY,

VICE-PRESIDENT EMERITUS
Notable for his studies of arid lands on several continents and in particular for his work on the native peoples and early missions of northern Baja California, Mexico.

Peveril Meigs III, Ph.D.

UC Berkley Student of Carl O. Sauer and Alfred Kroeber

and received favorable comment. “The Dominican Mission Frontier of Lower California,” by Dr. Meigs, was published in May.

1930

1940

published a book called “The Kiliwa Indians of Lower California,” and has written “A New Index for Analysis of Regional Trends,” published in the Scottish Geographical Magazine. He is also president of the Association of Pacific Coast Geographers.
Geography Was Taught in the Physical Sciences

Dr. Jankunis was prohibited from teaching in California because he led a protest march against the Vietnam war on campus. He emigrated to Canada with his young family in 1968.

Frank was one of the first professors in the Geography Department of the newly established University of Lethbridge.
1970

Geography Graduate Program is initiated
April 22, 1970
Students celebrating the first Earth Day on the Chico State campus pushed a car into West 1st Street and blocked traffic. The event escalated with a demonstration into the night. The police arrested protesters (the campus Master Plan’s policy was to abandon 1st Street into the campus). The protesters were arrested on conspiracy charges which were later dropped. The street re-opened the next day, however it was permanently closed over the segment running through campus later that year. In 1970 a new word was becoming popular — ECOLOGY.
Spring 2014 - Geography Students Lead Protest

Dr. Mark Stemen’s Environmental Thought and Action class protests CSUC for investing in stocks representing fossil fuel companies.
Following Professor Stemen's GEOG 440 students' efforts in conjunction with the AS executive, the University Foundation Board of Governors voted to fully divest from fossil fuel companies within the next four years. Chico State will be the first CSU to do so.

Thank you President Zingg, the Board, and AS!

Geographers on the Cutting Edge of Sustainable Development!!
Early 1980s
Sustainability, Environmental Issues and Action…continues in Dept.

- Prof. Stemen co-founded the conference in 2004 with Tom Barrett, our Alumni.
- Prof. Stemen first Advisor to AS Environmental Action Resource Center
University restrictions on growth and hiring allocations led to no permanent hiring of faculty until the mid-80s. Then a student, Steve Herman, Lecturer, goes to Guatemala on a field trip with Professor Gene Martin.
California Geographic Alliance

- Founded at UCLA in 1982
  - Chico Geographers part of founding institution
- Dedicated to supporting and improving geographic education and literacy in California.
  - Faculty: Bechtol, Lantis, Myles, Hardwick, & Williams
  - Chico hosted CGA from 1993-2005
  - Dr. Jerry Williams was the director
1986

The University Nature Reserves

1999/2000

The Big Chico Creek Ecological Reserve contains 3,950 acres of diverse habitat, including a 7-mile stretch of the Chico Creek, and is home to many species of plants and animals. BCEP was accredited with the purchase of the Dimmora Ranch in 1999 and the Haehnling Ranch in 2001. It is owned and managed by the California State University, Chico, Research Foundation.

The Reserve ranges in elevation from 700 feet to 2,049 feet and includes a wide variety of habitat, including creek, hillside and upland, riparian zones, oak woodland, chaparral, pine forest, rock cliffs, and springs. These diverse habitats support over 1,400 different wildlife species, including a number of rare and endangered species, and support a large tract of unaltered habitat. BCEP contributes to the understanding and wise management of the Earth and the natural systems by preserving critical habitat, and providing a natural area for experimental research and education.

The Big Chico Creek Ecological Reserve (BCEP) is owned by the University Research Foundation and managed by the Institute for Sustainable Development of the California State University, Chico. The BCEP site was acquired in two land purchases in 1999 and 2001. The University Research Foundation purchased 3,950 acres of land, with grant money from the Wildlife Conservation Board, the Packard Foundation, the US Fish and Wildlife Service, the National Fish and Wildlife Foundation, the River Network, and Jack Hennings.

"Climate Change Update 2014: The Power of Geographic Science"

Robert on a clipper sailing ship in the mid-Atlantic to view a total solar eclipse November '13
"As a young man, my fondest dream was to become a geographer. However, while working in the customs office I thought deeply about the matter and concluded it was too difficult a subject. With some reluctance I then turned to physics as a substitute."

“Ironically, it was in physics that I found my true passion.”
Keeping Our Chico State GEOP Students on the Cutting Edge, Involves You!

♦ Chico State’s Campus-wide Campaign will take place over the next 6 years!

♦ Raise $1.5M Endowment for Perpetual Funding of the Geography & Planning Department.
An Endowment Will Provide

– Funds to keep the GIS/Cartography lab updated with new software/hardware;
– Support for combined student & faculty research projects;
– Students & faculty travel to professional conferences and for research travel; and
– Establishment of endowed Scholarships for GIS & Planning Certificate Students; and Environmental Studies minor Students.
