The annual meeting of the California Geographical Society is unique in many ways. In addition to outstanding keynote speakers and superlative field trips, the conference is exceptionally student friendly. This year takes us to Bishop, CA, gateway to the amazing East Side of the Sierra Nevada. Field trips this year include a ski tour on Mammoth Mountain, a canoe reconnaissance of Mono Lake, a visit to endangered bighorn sheep habitat, and many more.

For further details contact Dr. Robert Voeks,
