Caltrans District 2 is now accepting applications for:
Office of Roadside Maintenance

GIS STUDENT ASSISTANT

**JOB DESCRIPTION:** Under close supervision by the Office Chief, in a learning capacity, the GIS Student Assistant will assist the Geographic Information System (GIS) Analyst in GIS data processing and database development for the culvert inventory and stormwater programs. The Student Assistant will also help with Quality Assurance/Quality Control (QA/QC) for new culvert inventory data input into the GIS database as well as assisting other professional staff with project development tasks.

**REQUIREMENTS:** This position requires that the student work part-time during the school year and full-time during the breaks. Applicants must be currently enrolled in a GIS program or have completed the GIS certificate program and must maintain a minimum of 6 semester units (or quarter equivalent) and an overall GPA of 2.0. Unofficial transcripts and proof of enrollment will be required prior to the interview.

**HOW TO APPLY:**
- Go to: [www.InternSource.org](http://www.InternSource.org)
- Create an account
- Log in
- Complete profile
- Go to job listings
- Apply

In addition, please email the application, resume, cover letter, and unofficial transcripts to:
Annette.Buchholz@dot.ca.gov
