

General Information for Computer Usage

There will be a PC available that will accommodate the following:

- USB, Floppy Disc, and CD.

Monitor specifications:

- Resolution Setting 1024 x 768

If you use a Macintosh please see to it that your USB device, Floppy Disc, or CD is formatted for a PC.

Attention:

If you choose to use your own laptop:

- Connect the VGA cable to your laptop
- Cable is provided
- Select laptop as video source

To connect to the web site:

- Ethernet Card
- Adapter
- Cable

Remember to boot up last and boot down first!

Macintosh requirements:

- DVI to VGA adapter for Macs
- AC Power Supply Adapter
- Computer Manual

There will be a computer technician available to offer assistance during the local competition. The room can also be made available prior to the event, for those who want to test the compatibility of their media or laptop with the equipment in the room.

Arrangements can be made by calling the smart classroom hotline at x 5475.
