Application Closes: April 1, 2017

Minimum GPA: 2.5

Against All Odds: The History of Cuban Baseball and Cuba’s Sports Revolution

HIST, 400-level, 3 credits

• Cuba is an international sports powerhouse, despite its limited resources and its relatively small population (slightly more than 11 million). The most popular sport in Cuba happens to be the quintessential American sport—baseball. Since 1959, the Cuban Revolution has democratized and harnessed sports—including baseball—to suit its ideological and political objectives. This course will analyze how the Revolution has promoted and politicized Cuban sports.

• Combine with a course on Cuban cuisine, Cuban culture, or dances of Havana and the Caribbean.
