International Student Address Change Form

All International Students who change their U.S. address must notify two offices:

Student Records and Registration: Update your contact information through your Portal account. This updates university records.

International Student Advising: Complete this change of address form and give it to the International Student Advising Office (Student Services Center 440). They will update your address with the United States Citizenship and Immigration Service (USCIS). This is an immigration requirement specified on your I-20.

Today’s Date: _______________________ CSU, Chico Student ID: _____________
