“Extremely fast services!”
—Customer Satisfaction Survey
Campus Web 3.0, our updated responsive framework for campus websites, is here! It lives on a brand-new server with a completely updated version of Cascade. While sites can now be built 94% faster, migrating all 376 campus sites will be a huge undertaking. Each site will get revamped with fresh photos and new content based on analytics—and inaccessible content will be remediated.

We did our part in celebrating our new University president. Check out www.csuchico.edu/inauguration.

The Campus Web 3.0 framework is 96% accessible. As we migrate sites, the campus will see dramatic progress in meeting CSU Accessible Technology Initiative (ATI) goals.
