**Getting Settled in Chico**

**Transportation**

**Bicycling:** Most students live within biking distance to the university, which makes bicycling a very convenient mode of transportation. It is also a popular recreational sport, as there are many scenic areas and few hills in the Chico area. There are, however, bicycle regulations with which you should be familiar and on campus there are specific areas where riding or parking your bike is prohibited. For more go to: [Campus Bike Rules](#).

Registering your bicycle is required by law in California. To register your bike, go to the University Police Department. New bike registrations are $10 and the registration will last 3 years. Bike registration renewals are $5.

**Airline Services:** The easiest way to reach Chico is to make the Sacramento International Airport (SMF) your final destination. Chico is approximately 100 miles (160 km) north of Sacramento International Airport. If you fly into the San Francisco airport, it is best to get the short flight to Sacramento. We do not recommend you take a bus or train from San Francisco to Sacramento or Chico. North Valley Shuttle provides transportation to and from the Sacramento International Airport.
