

# The library presents a workshop series for faculty!

<http://www.csuchico.edu/lins/tours/FwkshopSP09.pdf>

Every Friday in April the Library will be presenting two hands on workshops for faculty focusing on resources or topics of importance to researchers. Come join us in our new laptop classroom, Library 226. RSVP to Dorcas Erickson at [derickson@csuchico.edu](mailto:derickson@csuchico.edu) or 898-6361.

**April 3, 11:00 a.m.**

## **Google Scholar & Academic Research**

What exactly is Google Scholar? What are the pros and cons for academic research? Join us as we explore the benefits and limitations of what Google Scholar has to offer and share some strategies that will maximize your searches. **(Jacquie Foster)**

**April 3, 1:00 p.m.**

## **Going Green Online**

Learn how to find information related to the environment and sustainability through library databases like Greenfile, as well as through government and organizational websites. Research and environmental activism and advocacy resources will also be covered. **(Jim Dwyer)**

**April 10, 11:00 a.m.**

## **Google Book Search**

Google is continuing its massive digitization project in an attempt to make searchable the full text of millions of books. How does Google Book Search affect scholarly publication and research? Learn what is available through Google Books and what the recent settlement of the class action suit against them will mean to authors, scholars, and to libraries. **(Sarah Blakeslee)**

**April 10, 1:00 p.m.**

## **Article & Journal Alerts through Email & RSS**

Let your research come to you! RSS feeds and email alerts simplify the process of keeping up-to-date with your research by sending information you have requested from library databases to your email or feed reader. This hands-on workshop will illustrate how to set up RSS feeds and email alerts. **(Jodi Shepherd)**

**April 17, 11:00 a.m.**

## **The Blogosphere in the Classroom**

Explore how blogs are being used in academic and educational settings to distribute information and create learning communities. Learn how to set up a blog for you, your class, or your department with free software available on the Internet. **(Aaron Bowen)**

**April 17, 1:00 p.m.**

## **Your What Hurts?**

Learn to find accurate, current health information through library databases and public web sites. Help yourself become an educated medical researcher as well as a savvy health information consumer. **(Liz Colson)**

**April 24, 11:00 a.m.**

## **EndNote**

Learn to use EndNote Web to collect, organize, format, and access your personal library of citations, wherever you are. EndNote Web will help you build bibliographies, convert old papers, and write new papers using any one of hundreds of citation styles. **(Richard Soares)**

**April 24, 1:00 p.m.**

## **ArtSTOR**

ARTstor is a digital library of nearly one million images in the areas of art, architecture, the humanities, and social sciences. In addition to exploring approaches to searching for images, participants will learn how to use *ARTstor* to create presentations and manage personal image groups for teaching and research. **(George Thompson)**
