

MESA ENGINEERING PROGRAM (MEP)

Graduate Profile

Name: Daniel Puga

Major: Computer Science

Student Organizations: LTC President

Graduation Year: 1994

Current Employer: Hewlett-Packard

Job Title: Research and Development Section Manager

Job Description: I manage a section of the lab (five project teams) in Boise, ID and Vancouver, WA. We develop printing and imaging device management tools used in the majority of large enterprises across the globe. The name of the tool is HP Web Jetadmin.

How did the MESA Engineering Program (MEP) help you?

Great support network and access to resource like computers and tutoring to help me get my school work complete. Great access to leadership opportunities and connections with potential employers.

Favorite Chico memory? (optional)

All of our trips to the national SHPE conferences were great. A lot of fun and great opportunities to gain exposure to potential employers.

Daniel Puga takes a break at the Hewlett Packard office in Boise, Idaho.
