

# MESA ENGINEERING PROGRAM (MEP)

## Alumni Profile

**Name:** Ebrima Ceesay

**Major:** Computer Science

**Student Organizations:** National Society of Black Engineers, member of the Golden Key National Honor Society, Vice President of Upsilon Pi Epsilon Computer Science Honors Society

**Graduation Year:** Undergraduate BS in Computer Science 2001,  
Earned Masters in Computer Science 2003

**Current Position:** PhD candidate at UC Davis for a doctorate in Computer Science, emphasis on A/I and Security

**Job Title:** After earning a PhD, from UC Davis Ebrima is interested in working in Research and Technology Transfer to Sub Saharan Africa

**How did the MESA Engineering Program (MEP) help you?** Gave me many opportunities and resources that I did not know about. The program gave me important industry contact, helped me earn scholarship funds and to helped me to get into Graduate School at UC Davis.

**Advice for current Chico State MESA students:** Take full advantage of the all that MESA has to offer the staff is there to help students. Be respectful of the staff and allow them to help you because they are there to help you and they will help you live up to your full potential.
