

## MESA ENGINEERING PROGRAM (MEP)

### Alumni Profile

**Name:** Santiago Sanchez

**Major:** BS in Electrical/Electronics Engineer

**Student Organizations:**

Latinos in Technical Careers (SHPE), President, Vice-President, Treasure, Secretary  
Institute of Electrical/Electronic Engineers (IEEE), Communications Chair

**Graduation Year:** 1998

**Current Position:** Project Manager

**Job Title:** Project Manager

**Job Description:**

Responsible for Product Management, Product Release, Product support and Program Management of Asset Management and Configuration Management products. Responsible for managing company resources, implementing timelines, and delivery of final product to the end customer. Managing day to day support calls with end users, troubleshooting and data management using best practice business rules. Providing asset management consulting and design, with quick product implementations.

**How did the MESA Engineering Program (MEP) help you?**

MESA provided the day to day support that is required to be able to accomplish your educational goals. Constant counseling, tutoring, networking, computer labs, and various other resources that assisted me with completing my college degree. There is no way, I could have made it through the Engineering program without MESA's assistance.

**Did you receive any Scholarships from the MESA Program?**

Yes, MESA provided yearly scholarships, in which they recognized my academic achievements and were able to assist in my completion of my goals.

**Advice for current Chico State MESA students:**

Realize that you have a support team within MESA that will help you complete your academic experience. There is nothing more beneficial than study groups and dedication to get you through the difficult course work. In the end you will reap the rewards of your hard work and dedication.

Santiago Sanchez takes a break while working on a project at the Ventana Group's home office in Gridley, CA.
