

# Nutrition & Food Sciences

## CAREERS IN DIETETICS

### Job Opportunities for Dietitians and Nutritionists

- By 2014, nutrition jobs are projected to increase 21%
- Our students have a competitive edge due to numerous practical opportunities outside the classroom (service-learning experiences) like
  - Externships in community facilities
  - Paid student staff positions at the Center for Nutrition and Activity Promotion (CNAP)
  - Community nutrition projects and activities
  - Management projects and hands-on work
  - Membership and leadership opportunities in the student club NFSA

### Great Pay

- Median salary for registered dietitians (RD) in the U.S. is \$53,300/ yr
- Some RD salaries exceed \$82,500/ yr
- Food service and purchasing managers may exceed \$96,200/ yr

### Exciting Options

Our students have options in healthcare, clinical management, counseling, community outreach, business/ private practice, government, hospital/school/ correctional food-service management, consulting services, academia, and research

### Challenging Field

Our ADA-accredited curriculum is firmly based in biochemistry, pathophysiology, food science, behavioral science, practical business administration and food-service management

**We will prepare you for all the nutrition field has to offer!**
