Simulation Education 2.0

The NEXT Generation in Simulation Education!

Rural Northern California Clinical Simulation Center
“Increasing Patient Safety Through Improved Clinical Proficiency and Teamwork”

July 8-9, 2015
9:00 am to 4:30 pm

A Conference for health care professionals who want to use Simulators and simulations for teaching!

The Rural SimCenter has been accredited by the Society for Simulation and Healthcare in the area of education and teaching!
All educators are Certified Healthcare Simulation Educators!

Provider approved by the California Board of Registered Nursing Provider #15338 for 13 Contact hours
Sim 2.0 Course Goals: The next steps in simulation education with increased focus on debriefing, unfolding case scenarios, evaluation, interdisciplinary cases and curriculum integration. This course is designed to help the educator close student learning gaps using simulation methods.

This conference will enable participants to expand their simulation toolbox to develop simulations for use in their educational settings. The course will make you feel at ease with the technology and methodology of simulation education. The results will rejuvenate your simulation program. This is not a course for beginners! This course is designed to take novice simulation instructors to the next level of simulation design. There will be something for everyone in healthcare education from academia to practice. Complex scenario development will be reviewed and debriefing will be a focal point. Plan to participate in interactive learning sessions and develop skills as a simulation educator!

Participants will:

- Explore innovative strategies for designing and delivering simulations
- Review and expand debriefing skills and Simulation Education best practices
- Evaluate simulation exercises and simulation scenarios
- Explore current research advances in the field of simulation
- Participate in interactive sessions using simulation tools and techniques.
- Discuss the challenges and changes necessary to integrate simulation into educational curricula in both the healthcare and academic setting.
- Explore the unfolding scenario.
- Discover advances to improve clinical education and practice using simulation.
- Become familiar with new products and resources.

Course Hours: 9:00 a.m. until 4:30 p.m.
