Check your Wildcat e-mail for updated communications on all your classes. Faculty will also use Blackboard Learn to communicate with students regarding nursing classes. If you need to take other elective classes, do so on late afternoon Mondays. Some Thursdays may be scheduled for N314 Skills Labs.

Clinical Requirements – This is extremely important. Updates of all clinical requirements are due to CastleBranch by Friday, August 4, 2017. These requirements include updating proof of health and auto insurances (make sure your name appears on the submitted policy), as well as any expiring immunizations (i.e., PPD tests, flu vaccine) or CPR certifications. If your CPR expires soon, schedule renewal now and make sure you take the correct course. The CPR card needs to read, "Healthcare Professional or Healthcare Provider" and is good for two years. Please note: If clinical requirements are not updated by August 4th, students may be disenrolled from clinical courses, which could affect financial aid eligibility. You will also lose professional points in your courses if this is not completed on time.

Register for the following courses:

N313 - Registration # 4883
N314: (register for one of the four sections)
Section 1 - Registration # 4889  Enloe Medical Center
Section 2 - Registration # 4905  Enloe Medical Center
Section 3 - Registration # 4906  Mercy Medical Center Redding
Section 4 - Registration # 4907  Mercy Medical Center Redding
N343 - Registration # 4929
N344: (register for the same location; register for different sections at Enloe)
Section 1 - Registration # 4932  Enloe Medical Center-5th Floor
Section 2 - Registration # 4933  Enloe Medical Center-3rd and 4th Floors
Section 3 - Registration # 4934  Oroville Medical Center
Section 4 - Registration # 4935  Feather River Hospital

N314 –Maternal-Child Practicum

N314 IV Skills Lab in Holt 357 on August 21, 2017
8:00am-10:00am  N314 Sections 2 & 4
10:00am-12:00pm  N314 Sections 1 & 3

N314 OB/Pediatrics Skills Lab in Holt 357 on August 21, 2017
1:00pm-5:30pm N314 Sections 1 & 3

N314 Orientation: All students will meet in Sylvester’s 100 on Tuesday, August 22nd from 9:00am- 5:30pm, and on Friday, August 25th from 12:30pm-5:00 p.m. A few days prior to the beginning of school, your course supplement will be available on Blackboard Learn. Please print
a copy of the syllabus, supplement, and section calendar and bring it to both days of orientation. (If you prefer you can bring a laptop to the orientation and access the syllabus and supplement with your computer, but definitely print the calendar and bring it with you.)

**N314 ATI Dosage Calculation Assessments** - You will be required to take the ATI Pediatric and Maternal Newborn Dosage Calculation assessments DURING ORIENTATION the first week of the semester. **By midnight on Saturday, August 19th you must have completed the 9 tutorial practice tests within the previous 60 days with a score of 90% or higher.** Completing these modules during a previous semester does not qualify. There is no need to print proof of completion as your clinical instructor will check online. **You will not be allowed entrance to the testing room without completion of the tutorials.** To access the tutorials, please log into [www.atitesting.com](http://www.atitesting.com) and go to the Products section and then the Tutorial tab. The 9 tutorials are: Safe Dosage, Medication Administration, Oral Medications, Injectable Medications, Powdered Medications, Parenteral (IV) Medications, Dosages by Weight, Critical Care (to prep for the Maternal Dosage Calculation Assessment) and Pediatric Medications (to prep for the Pediatric Dosage Calculation Assessment).

You will also take 2 ATI proctored assessments for Maternal/Newborn and Pediatric content late in the semester.

**N314 Clinical** - All sections rotate through acute (hospital) OB and Pediatrics and have many additional components, which include community sites & simulation training. The specific dates scheduled will be provided to you during N314 orientation during the first week of the semester and are subject to change due to ongoing negotiations and arrangements made with our facilities. **Bringing your N314 calendar to orientation is very important as you may be given some optional dates during orientation.**

Simulation Training is conducted at the Northern California Rural Simulation Center, located at 560 Cohasset Road, Chico.

**N314 Hospital Rotations** - Rotations for OB/Pediatrics are described for each section below. Dates provided here are still tentative and subject to change.

**N314- Sections 1 & 2; Enloe Medical Center in Chico for Acute Pediatrics and OB.**

Note that 10-12 hours of online reading and tests are due at the beginning of the semester. You will receive an email from Enloe to access these modules with these words in the Subject heading: `epm-alerts@elsevier.com`. Please follow the link to complete your modules. Even if you begin clinical during the last half of the semester, Enloe is requesting for all modules to be complete at the beginning of each semester. **Enloe insists that you must have these done or the CSUC School of Nursing will need to remove you from your clinical section.**

There are a total of 7 clinical hospital days plus one half-day Enloe orientation, 12 hours of simulation training (3 separate dates) at the Sim Center, and other skills labs and clinical sites. These dates/times/sites will be provided to you during N314 orientation during the first week of the semester.
N314-Section 1: Enloe Medical Center for Pediatrics and OB – Tuesdays, August 29th, September 5th, September 12th, September 19th, September 26th, October 3rd, and October 10th from 6:30 am - 6:00 pm. Orientation is on tentatively scheduled for Friday, August 25th from 8:00 am-12:00 pm. Please wear your CSUC scrubs and follow the CSUC dress code.

N314-Section 2: Enloe Medical Center for Pediatrics and OB - Tuesdays, October 17th, October 24th, October 31st, November 7th, November 14th, November 28th, and December 5th from 6:30 am - 6:00 pm. Orientation is tentatively scheduled on Friday, October 13th from 8:00 am-12:00pm. Please wear your CSUC scrubs and follow the CSUC dress code.

N314-Sections 3 & 4: Mercy Medical Center in Redding for acute Pediatrics and OB.
NOTE: There are a total of 8 clinical hospital days, a separate full-day Mercy Medical Center orientation, 12 hours of simulation training (3 separate dates) at the Sim Center, and additional clinical sites. These additional dates will be provided to you during N314 orientation during the first week of the semester.

The 8 clinical days occur over 4 weeks on Friday and Saturdays; 6:30 a.m. – 6:00 p.m., as follows:
Section 3: September 8-9, September 15-16, September 29-30, & October 6-7
Section 4: October 13-14, October 20-21, October 27-28, November 3-4
ORIENTATION for both sections: Friday, September 1st from 9:00am-5:00pm at Mercy Medical Center in Redding, CA. Please wear your CSUC scrubs and follow the CSUC dress code.

For more information about the N314 schedule, please e-mail Dr. Gayle Kipnis at gkipnis@csuchico.edu

Nursing 343: Medical Surgical Nursing

Nursing 343: This is a three-unit continuation of Nursing 303, which you took in second semester. This course, too, is primarily pathophysiology and care of the adult with disorders of those systems not covered in Nursing 303. This class meets Wednesdays from 3-5:50 pm with location TBA. The first meeting of this course will be on Wednesday, August 23. The syllabus, course calendar, and other information will be published in Blackboard Learn approximately one week before the semester begins. The textbooks will be the same as for Nursing 303.

Nursing 344: Medical Surgical Nursing Practicum

Nursing 344: Nursing 344 is the clinical accompaniment to Nursing 343. It is a 90-hour med/surg clinical. You will meet on Mondays from 0700-1530 for 11 days with 2 hours in finals week. This includes 2 simulation days. All facility requirements must be completed prior to beginning the clinical rotation. Since you’ll be returning to the same facility you were in for Nursing 304, those should already be complete. It is, however, your responsibility to make sure that is the case. Orientation for Nursing 344 will be on Monday, August 28. You will wear scrubs for the orientation. Check the course page in Bb Learn for the time and place.

- You will take the ATI dosage calculation proctored exams during your orientation for
N314 Maternal/Child and will not pass meds in N344 until it is passed.

- You must register for the same facility as second semester. For example, if you were in Oroville for Nursing 304, you will be there again for Nursing 344. The same holds true for Feather River and Enloe.
- At Enloe, choose the section that is different from your 2nd semester. For example if you were on 3rd floor for your second semester rotation, choose the 5th floor for your third semester rotation.

N344: (register for the same location; register for different sections at Enloe)
Section 1 - Registration # 4932  Enloe Medical Center-5th Floor
Section 2 - Registration # 4933  Enloe Medical Center-3rd and 4th Floors

Enloe Sections: Note that 10-12 hours of online reading and tests are due at the beginning of the semester. You will receive an email from Enloe to access these modules with these words in the subject heading: epm-alerts@elsevier.com. Please follow the link to complete your modules.
Section 3 - Registration # 4934  Oroville Medical Center
Section 4 - Registration # 4935  Feather River Hospital

Orientation for Nursing 344 will be on Monday, August 28. You will wear scrubs for the orientation. Check the course page in Bb Learn for the time and place. You will take the ATI dosage calculation proctored exam on your orientation for N314 Maternal/Child and will not pass meds in N344 until it is passed.

ATI

ATI: You will take the ATI medical surgical proctored exam this semester, at approximately week 14. Dates and times will be published in the course material in Bb Learn.

For more information about the N343 or N344, e-mail Jane Scheer at jescheer@csuchico.edu
