School of Nursing  
Semester 3 Course Information  
Spring 2018

Check your Wildcat e-mail for updated communications on all your classes. Faculty will also use Blackboard Learn to communicate with students regarding nursing classes. If you need to take other elective classes, do so on late afternoon Mondays. Some Thursdays may be scheduled for N314 Skills Labs.

Clinical Requirements – This is extremely important. Updates of all clinical requirements are due to CastleBranch by Friday, January 2, 2018. These requirements include updating proof of health and auto insurances (make sure your name appears on the submitted policy), as well as any expiring immunizations (i.e., PPD tests, flu vaccine) or CPR certifications. If your CPR expires soon, schedule renewal now and make sure you take the correct course. The CPR card needs to read, "Healthcare Professional or Healthcare Provider” and is good for two years. Please note: If clinical requirements are not updated by January 2th, students may be unenrolled from clinical courses, which could affect financial aid eligibility. You will also lose professional points in your courses if this is not completed on time.

Register for the following courses:
**N313** - Registration # 4565

**N314**: (register for one of the four sections)
- Section 1 - Registration # 4586  Enloe Medical Center
- Section 2 - Registration # 4587  Enloe Medical Center
- Section 3 - Registration # 4601  Mercy Medical Center Redding
- Section 4 - Registration # 4602  Mercy Medical Center Redding

**N343** - Registration # 4613

**N344**: (all students register for the same location that you went to in Semester 2; register for different sections at Enloe)
- Section 1 - Registration # 4612  Enloe Medical Center-5th Floor
- Section 2 - Registration # 4617  Enloe Medical Center-3rd and 4th Floors
- Section 3 - Registration # 4618  Oroville Medical Center
- Section 4 - Registration # 4619  Feather River Hospital

**N314 –Maternal/Child Practicum**

**N314 Orientation** on Monday, January 22nd, 9:00am-5:30pm and on Friday, January 25th from 12:30pm-5:00 pm in Sylvester’s 100. This is a mandatory orientation and there is no make-up available. A few days prior to the beginning of school, your course supplement will be available on Blackboard Learn. You do not need to wear scrubs but please wear comfortable clothing and a yoga mat and pillow for our Labor Support Seminar in the afternoon. Please print a copy of the syllabus, supplement, and section calendar and bring it to both days of orientation. (If you prefer you can bring a laptop to the orientation and access the syllabus and supplement with your computer, but definitely print the calendar and bring it with you.)
Enloe On-Site Computer Orientation - Tuesday, January 23:
N344 Med/Surg Sections 1 & 2 - 9:00am-11:00am
N314 Maternal/Child Sections 1 & 2 - 1:00pm- 3:00pm
Due to the conversion to the EPIC computer system during Spring 2018, Enloe has requested that all students that will have their Enloe clinicals at their hospital attend this mandatory orientation. Please wear your CSUC scrubs.
Note: If you are having both your N344 Med-Surg and your N314 Maternal/Child rotations at Enloe, you DO NOT need to attend twice. Please email the clinical instructor that you are not going to be with to inform them that you will be attending with your other group.

N314 OB/Pediatrics Skills Lab in Holt 357 on Thursday, January 25, 2017 from 9:00am-5:30pm for SECTIONS 1 & 3 ONLY. This will be a full day of maternal, neonatal, and pediatric hands-on skills that are essential prior to your time at the hospitals. Sections 2 & 4 will have this skills lab later in the semester, closer to the start of clinical.

N314 ATI Dosage Calculation Assessments- You will be required to take the ATI Pediatric and Maternal Newborn Dosage Calculation assessments DURING ORIENTATION the first week of the semester. By midnight on Saturday, January 20th you must have completed the 9 tutorial practice tests within the previous 60 days with a score of 90% or higher. Completing these modules during a previous semester does not qualify. There is no need to print proof of completion as your clinical instructor will check online. You will not be allowed entrance to the testing room without completion of the tutorials. To access the tutorials, please log into www.atitesting.com and go to the Products section and then the Tutorial tab. The 9 tutorials are: Safe Dosage, Medication Administration, Oral Medications, Injectable Medications, Powdered Medications, Parenteral (IV) Medications, Dosages by Weight, Critical Care (to prep for the Maternal Dosage Calculation Assessment) and Pediatric Medications (to prep for the Pediatric Dosage Calculation Assessment).
You will also take 2 ATI proctored assessments for Maternal/Newborn and Pediatric content late in the semester.

N314 Clinical - All sections rotate through acute (hospital) OB and Pediatrics and have many additional components, which include community sites & simulation training. The specific dates scheduled will be provided to you during N314 orientation during the first week of the semester and are subject to change due to ongoing negotiations and arrangements made with our facilities. Bringing your N314 calendar to orientation is very important as you may need to add some additional dates during orientation.

Simulation Training is conducted at the Northern California Rural Simulation Center, located at 560 Cohasset Road, Chico.

N314- Sections 1 & 2; Enloe Medical Center in Chico for Acute Pediatrics and OB.
Note that up to 10 hours of online reading and tests are due on the first day of the semester, January 22nd. You will receive an email from Enloe to access these modules with these words in the Subject heading: epm-alerts@elsevier.com. Please follow the link to complete your modules. Even if you begin clinical during the last half of the semester, Enloe is requesting for
all modules to be complete by the first day of the semester. **Enloe insists that you must have these done or the CSUC School of Nursing will need to remove you from your clinical section.** There is also the mandatory **Enloe computer orientation on Tuesday, January 23** as described above.

There are a total of 7 clinical hospital days plus one half-day of on-site Enloe orientation (this is in addition to the Enloe charting orientation), 12 hours of simulation training (3 separate dates per student) at the Sim Center, and other skills labs and clinical sites. These dates/times/sites will be provided to you during N314 orientation during the first week of the semester.

**N314-Section 1:** Enloe Medical Center for Pediatrics and OB – Tuesdays, 1/30, 2/6, 2/13, 2/20, 2/27, 3/6 and 3/13 from 6:30 am - 6:00 pm. Enloe on-site Orientation is scheduled for Friday, January 26 from 8:00 am-12:00 pm. Please wear your CSUC scrubs and follow the CSUC School of Nursing dress code.

**N314-Section 2:** Enloe Medical Center for Pediatrics and OB - Tuesdays, 3/27, 4/3, 4/10, 4/17, 4/24, 5/1, & 5/8 from 6:30 am - 6:00 pm. Enloe on-site Orientation is scheduled on Thursday, March 15 from 8:00 am-12:00pm. Please wear your CSUC scrubs and follow the CSUC School of Nursing dress code.

**N314-Sections 3 & 4:** Mercy Medical Center in Redding for acute Pediatrics and OB. **NOTE:** There are a total of 8 clinical hospital days, a separate full-day Mercy Medical Center orientation, 12 hours of simulation training (3 separate dates) at the Sim Center, and additional clinical sites. These additional dates will be provided to you during N314 orientation during the first week of the semester.

The 8 clinical days occur over 4 weeks on Friday and Saturdays; 6:30 a.m. – 6:00 p.m., as follows:

**Section 3:** February 16-17, February 23-24, March 2-3, & March 9-10

**Section 4:** April 6-7, April 13-14, April 20-21, & April 27-28

**ORIENTATION for both sections:** Friday, February 2nd from 8:00am-5:00pm at Mercy Medical Center in Redding, CA. Please wear your CSUC scrubs and follow the CSUC dress code.

For more information about the N314 schedule, please e-mail Dr. Gayle Kipnis at gkipnis@csuchico.edu

**Nursing 343: Medical Surgical Nursing**

**Nursing 343:** This is a three-unit continuation of Nursing 303, which you took in second semester. This course, too, is primarily pathophysiology and care of the adult with disorders of those systems not covered in Nursing 303. This class meets Wednesdays from 3-5:50 pm with location TBA. The first meeting of this course will be on Wednesday, January 24. The syllabus, course calendar, and other information will be published in Blackboard Learn a few days before the semester begins. The textbooks will be the same as for Nursing 303.
Nursing 344: Medical Surgical Nursing Practicum

Nursing 344: Nursing 344 is the clinical accompaniment to Nursing 343. It is a 90-hour Medical/Surgical clinical. You will meet on Mondays from 0700-1530 for 11 days with 2 hours in finals week. This includes 2 simulation days. All facility requirements must be done prior to beginning the semester/clinical rotation and this is your responsibility to complete.

You must register for the same facility as second semester. For example, if you were in Oroville for Nursing 304, you will be there again for Nursing 344. The same holds true for Feather River and Enloe.

- At Enloe, choose the section that is different from your 2nd semester. For example, if you were on 3rd floor for you second semester rotation, choose the 5th floor for your third semester rotation.

Enloe Sections: Note that up to 10 hours of online reading and tests are due by the first day of the semester, January 22, 2018. You will receive an email from Enloe to access these modules with these words in the subject heading: epm-alerts@elsevier.com. Please follow the link to complete your modules. Enloe insists that you must have these done or the CSUC School of Nursing will need to remove you from your clinical section.

Enloe Orientation: Following the Enloe mandatory computer orientation on Monday, January 22, you will have a more detailed clinical orientation and skills lab for the remainder of the day.

ATI

All students will take the ATI dosage calculation proctored exams during your orientation for N314 Maternal/Child and will not pass meds in N344 until it is passed with a 90%.
You will also take the ATI medical surgical proctored exam this semester, at approximately week 14. Dates and times will be published in the course material in Bb Learn.

For more information about the N343 or N344, e-mail Carl Pittman at cpittman1@csuchico.edu
