School of Nursing  
Semester 3 Course Information  
Fall 2018  

Check your Wildcat e-mail for updated communications on all your classes. Faculty will also use Blackboard Learn to communicate with students regarding nursing classes. If you need to take other elective classes, Monday evenings would work the best with your School of Nursing (SON) schedule for third semester.

Clinical Requirements – This is extremely important. Updates of all clinical requirements are due to CastleBranch by Wednesday, August 1, 2018 (Subject to change…check School of Nursing website). These requirements include updating proof of health and auto insurances (make sure your name appears on the submitted policy), as well as any expiring immunizations (i.e., PPD tests, flu vaccine) or CPR certifications. If your CPR expires soon, schedule renewal now and make sure you take the correct course. The CPR card needs to read, "Healthcare Professional or Healthcare Provider” and is good for two years. Please note: If clinical requirements are not updated by August 3rd, students may be unenrolled from clinical courses, which could affect financial aid eligibility. You will also lose professional points in your courses if this is not completed on time.

Register for the following courses:  
**N313** - Registration # 4906

**N314**: (register for one of the four sections)  
Section 1 - Registration # 4909  Enloe Medical Center  
Section 2 - Registration # 4925  Enloe Medical Center  
Section 3 - Registration # 4926  Mercy Medical Center Redding  
Section 4 - Registration # 4927  Mercy Medical Center Redding

**N343** - Registration # 4949

**N344**: (all students register for the same location that you went to in Semester 2; register for different sections at Enloe)  
Section 1 - Registration # 4952  Enloe Medical Center-5th Floor  
Section 2 - Registration # 4953  Enloe Medical Center-3rd and 4th Floors  
Section 3 - Registration # 4954  Oroville Medical Center  
Section 4 - Registration # 4955  Feather River Hospital

**N314 – Maternal/Child Practicum**

**FIRST WEEK OF THE SEMESTER**  
**N314 Orientation-** Monday, August 27th, 9:00am-5:30pm on campus in Sylvester’s and again on Friday, August 31st from 1:00pm-5:00 pm (Location TBA). This is a mandatory orientation and there is no make-up available. A few days prior to the beginning of school, your N314 Blackboard course will be available that contains your syllabus, supplement, section-specific calendar & various schedules. Please bring your computer to orientation but specifically print copies of your section-specific N314 calendar and the Alpine Homes schedule and bring it to
both days of orientation. You do not need to wear scrubs but please wear comfortable clothing and a yoga mat and pillow for our Labor Support Seminar on Monday afternoon.

**Enloe On-Site EPIC Computer Orientation** - Tuesday, August 28, Times/Locations to be announced during N314 Orientation. If you have any of your Semester 3 clinical rotations at Enloe Medical Center, please leave this entire day free as Enloe has requested that students attend MANDATORY EPIC computer classes on this date. Please wear your CSUC scrubs.

**N314 ATI Dosage Calculation Assessments** - You will be required to take the proctored ATI Pediatric and Maternal Newborn Dosage Calculation assessments the first week of the semester. **By midnight on Saturday, August 25th you must have completed the 9 tutorial practice tests within the previous 60 days with a score of 90% or higher.** Completing these modules during a previous semester does not qualify. There is no need to print proof of completion as your clinical instructor will check online. **You will not be allowed entrance to the testing room without completion of the tutorials which will mean a loss of 3 professional points.** To access the tutorials, please log into [www.atitesting.com](http://www.atitesting.com) and go to the Products section and then the Tutorial tab. The 9 tutorials are: Safe Dosage, Medication Administration, Oral Medications, Injectable Medications, Powdered Medications, Parenteral (IV) Medications, Dosages by Weight, Critical Care (to prep for the Maternal Dosage Calculation Assessment) and Pediatric Medications (to prep for the Pediatric Dosage Calculation Assessment). You will also take 2 ATI proctored assessments for Maternal/Newborn and Pediatric content late in the semester.

**N314 CLINICALS** - All sections rotate through acute (hospital) OB and Pediatrics and have many additional components, which include community sites & simulation training. Simulation Training is conducted at the Northern California Rural Simulation Center, located at 560 Cohasset Road, Chico.

**N314 OB/Pediatrics Skills Lab in Holt 357;** 8:00am-12:00 pm and 1:00pm-5:00pm
This will be a full day of maternal, neonatal, and pediatric hands-on skills that are essential prior to your time at the hospitals.

**SECTIONS 1 & 3**- Thursday, August 30th
**SECTIONS 2 & 4**- Thursday, October 4th

**N314- Sections 1 & 2- Enloe Medical Center for Acute Pediatrics and OB.**
Note that up to 10 hours of online reading and tests are due on the first day of the semester, August 27th. You will receive an email from Enloe approximately 2-3 weeks prior to the start of the semester to access these modules with these words in the Subject heading: epm-alerts@elsevier.com. Please follow the link to complete your modules. Even if you begin clinical during the last half of the semester, Enloe is requesting for all modules to be complete by the first day of the semester. Enloe insists that you must have these done or the CSUC School of Nursing will need to remove you from your clinical section.

There is a total of 7 clinical hospital days plus one half-day on-site Enloe orientation (this is in addition to the Enloe EPIC charting orientation), 9 hours of simulation training (3 separate dates 4/3/18
per student) at the Sim Center, and other skills labs and clinical sites. These dates/times/sites will be announced during orientation.

**N314-Section 1:** Enloe Medical Center for Pediatrics and OB – Tuesdays, 9/4, 9/11, 9/18, 9/25, 10/2, 10/9 and 10/16 from 6:30 am - 6:00 pm. **Orientation is on Friday, August 31st from 9am-12:00pm.**

**N314-Section 2:** Enloe Medical Center for Pediatrics and OB - Tuesdays, 10/23, 10/30, 11/6, 11/13, 11/27, 12/4, and 12/11 from 6:30 am - 6:00 pm. Orientation is to be announced.

**N314-Sections 3 & 4:** Mercy Medical Center in Redding for Acute Pediatrics and OB. NOTE: There are a total of 8 clinical hospital days, a separate full-day Mercy Medical Center orientation, 9 hours of simulation training (3 separate dates) at the Sim Center, and additional clinical sites. These additional dates will be provided to you during N314 orientation during the first week of the semester.

**ORIENTATION for both sections:** Tuesday, September 4th from 8:00am-5:00pm at Mercy Medical Center in Redding, CA. Please wear your CSUC scrubs and follow the CSUC School of Nursing dress code.

There are 8 clinical days that occur over 4 weeks on Friday and Saturdays; 6:30 a.m. – 6:00 p.m., as follows:

**Section 3:** September 14-15, September 21-22, September 28-29 & October 5-6

**Section 4:** October 12-13, October 19-20, October 26-27, November 2-3

For more information about the N314 schedule, please e-mail Dr. Gayle Kipnis at gkipnis@csuchico.edu

**Nursing 343: Medical Surgical Nursing**

**Nursing 343:** This is a three-unit continuation of Nursing 303, which you took in second semester. This course, too, is primarily pathophysiology and care of the adult with disorders of those systems not covered in Nursing 303. The first meeting of this course will be on Wednesday, August 29. The syllabus, course calendar, and other information will be published in Blackboard Learn a few days before the semester begins. The textbooks will be the same as for Nursing 303.

**Nursing 344: Medical Surgical Nursing Practicum**

**Nursing 344:** Nursing 344 is the clinical accompaniment to Nursing 343. It is a 90-hour Medical/Surgical clinical on Mondays from 0700-1530 for 11 days with 2 hours in finals week. This includes 2 simulation days. All facility requirements must be done prior to beginning the semester/clinical rotation and this is your responsibility to complete.
You must register for the same facility as second semester. For example, if you were in Oroville for Nursing 304, you will be there again for Nursing 344. The same holds true for Feather River and Enloe.

- At Enloe, choose the section that is different from your 2nd semester. For example, if you were on 3rd floor for your second semester rotation, choose the 5th floor for your third semester rotation.

**Enloe Sections:** Note that up to 10 hours of online reading and tests are due by the first day of the semester, **August 27, 2018.** You will receive an email from Enloe to access these modules with these words in the subject heading: **epm-alerts@elsevier.com.** Please follow the link to complete your modules. **Enloe insists that you must have these done or the CSUC School of Nursing will need to remove you from your clinical section.**

**Enloe On-Site EPIC Charting Orientation:** Tuesday, August 28, Times/Locations to be announced during N314 Orientation on August 27th. If you have any of your Semester 3 clinical rotations at Enloe Medical Center, please leave this entire day free as Enloe has requested that students attend **MANDATORY** EPIC computer classes on this date. Please wear your CSUC scrubs.

**ATI**
All students will take the ATI dosage calculation proctored exams during your orientation for N314 Maternal/Child and will not pass meds in N344 until it is passed with a 90%.
You will also take the ATI medical surgical proctored exam this semester late in the semester. Dates and times will be announced.

**For more information** about the N343 or N344, please e-mail Dr. Darcy Lewis at **dhostetter-lewis@csuchico.edu**
