Final Advising Memo- 2014 Cohort  
From: Janet Ellis, RN  
jellis@csuchico.edu  
530-898-4151  
Date: August 11, 2015

**Degree Information:**

The official last day of the summer session is August 18th. The official graduation date for those that have met all the BSN requirements is August 31, 2015.

By the third or fourth week of September, the Evaluations department, should award your degree in the computer system and it should show up on your unofficial transcript available to you through your CSUC portal.

A few weeks after that, your diploma should arrive in the mail.

Official transcripts can be requested now (using the on-line system) and by checking the appropriate box, they will be held until the official degree is posted and then mailed.

**Public Health Nurse Certification:** Go to the Chico State SON website (http://www.csuchico.edu/nurs/) and use the right hand menu to find information about applying for your Public Health Nurse Certificate.

**CSUC Master’s In Nursing Program:**

The Chico State Master’s in Nursing program might be an option for some of you in the future. It has two tracks: one in leadership and management and one in education. The education track is ideal for those who want to do education in the clinical setting or the academic setting. The MSN program would likely be an easy transition for you as it is set up somewhat similarly to this program.

**RN to BSN Graduate Survey:**

In the not so distant future, you will receive a survey about the RN to BSN Program. I strongly encourage you to complete the survey to provide feedback about your experience. This helps us improve our program.

**Congratulations on completing the program!** I wish you success and enjoyment in your nursing careers. Please let me know if I can answer any questions or be of further assistance to you. It has been my pleasure to watch each of you grow and learn throughout this journey./Jan
