FROM: PLANNING, DESIGN & CONSTRUCTION

SUBJECT: SUMMER 2015 PROJECT SCHEDULE AND CLOSURES

Gus Manolis Bridge
The new Gus Manolis Bridge will be installed summer 2015 with construction beginning after commencement and continuing into October 2015. Due to construction staging at the south side of Holt Hall, the Holt Hall barrier arm access will be limited to emergency vehicles only for most of the summer. The main construction area, any temporary closures and alternate paths of travel will be clearly marked and notification sent out to campus. While the bridge itself will be installed prior to the start of the fall semester, work on the connections and pathways on the north and south sides of the bridge will continue into the fall semester. The bridge will not be usable until all work is complete. It is estimated this will be by the end of October 2015. Campus should continue to use the nearby bridges for an alternate route.

PAC Courtyard
The Performing Arts Center building will receive an updated courtyard this summer. During construction, all entrances within the courtyard will be closed (emergency exits will be available). Please access the PAC from the north entrance on 1st Street. There will be a temporary accessible ramp installed for the duration of this phase of construction.

The Courtyard renovation is scheduled to start Mid-June, 2015. The path from the accessible ramp on the southwest corner of the building to the southeast courtyard entry/exit (along with the entries into Harlen Adams Theatre) will be ready for use August 24, 2015. The remainder of the Courtyard and the north courtyard entrance will be ready for use late October, 2015.

*Please note there will be some limited access to Harlen Adams Theatre. PDC has been in contact with those groups.

Arts & Humanities Building
The final work on the Second Street sidewalk in front of the new Arts and Humanities Building will be closed from after Commencement to June 3, 2015. In addition, the final site work for the new Arts and Humanities building project will begin June 3, 2015 with access to Normal Avenue, between First and Second Streets, closed until August 21, 2015. Please use Chestnut Street to access campus. PAC occupants will not be able to use the southeast doors to exit the building and should be directed to use the stairs/ramp at First Street for access to the building. First Street, between Normal and Salem, will be closed down and not accessible starting July 13, 2015 until August 21 2015. Please use the new Ayres pathway to access this side of campus. Please be aware of these changes and plan your campus routes accordingly.

Please see the attached maps for more details on the closures and alternate routes at all three areas of campus.

Thank you for your patience during construction. If you have any questions, please contact Planning, Design & Construction at x6235.
