

## SUPPLEMENTAL APPLICATION

### Manager, Sacramento River Conservation Area Forum

**Compliance with the instructions on this form is a requirement for all applicants. To evaluate your qualifications for this position, submission of the standard CSU, Chico Research Foundation application in addition to your response to the supplemental application is required.**

The supplemental application provides reviewers with specific information and details not requested on the standard application. In addition to the content of your responses, we will evaluate your grammar, spelling, punctuation, proofing skills and legibility. You must complete all questions. Sign and submit this form with your application package and provide your responses on a separate piece of paper with the heading “Response to Supplemental Application.”

Name: \_\_\_\_\_

1. Describe your experience working with various local agencies, the public and private landowners.
2. List some ways that you would employ to avoid or mitigate conflicts between riparian habitat restoration and agriculture? Between riparian habitat restoration and flood control?
3. What does an “ecosystem approach” to flood management mean to you?

I hereby certify that all statements made in response to the instructions on this supplemental application are true and complete to the best of my knowledge and belief, and that I prepared the attached responses myself. If employed, I understand that my falsification of this record will be cause for termination.
