THE EDUCATIONAL LEADERSHIP PROGRAM
Preliminary Administrative Services Credential

APPLICATION PACKET

Well-qualified professional school administrators are essential to school success. The Educational Leadership Program focuses on preparing individuals to be transformative school leaders who place high value on student success. The program guides candidate learning through a developmental sequence from exploring foundations of educational leadership to becoming a practicing administrator.

A California Administrative Services Credential authorizes the holder to serve as an assistant superintendent, principal, assistant principal, supervisor, coordinator, or other equivalent or intermediate level administrator in California public schools. Successful completion of the twenty-four unit **Preliminary Administrative Services Credential (PASC)** Program leads to a Certificate of Eligibility for the PASC Credential. On obtaining the first administration position, your Preliminary Administrative Services Credential valid for five years is issued. During those five years one must earn the permanent Professional Clear Administrative Services Credential. An Administrative Internship Credential option is available for those employed in administrative positions during the program. (See Intern section of this packet.)

California Requirements for the Preliminary Administrative Services Credential

2. Have five years of successful full-time classroom teaching experience in the public schools, or in private schools of equivalent status, or three years of experience in pupil personnel services, health services, or librarian services.
