

Main Campus Wireless Map California State University, Chico

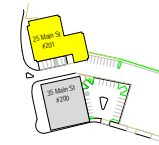

Updated: Spring 2009

Communications Services – California State University, Chico

Note On Outdoor Coverage

Outdoor Coverage may be found in many campus areas as a result of signal from indoor access points radiating outside. Specially designed outdoor coverage areas are planned for the next year to the north, east and south of Meriam Library.

Coverage Level

- Full Coverage
- Partial Coverage
- No Coverage
- Under Construction

For technical support with the wireless network or your wireless connection: Students should contact Student Computing at 898-HELP, Faculty & Staff should contact User Services at x6000.
