Identifying Instructional Resources

Use this document to discuss with your team the instructional resources that are needed to address the problem and those you already have available.

What instructional problem is your team focused on? ________________________________

INSTRUCTIONAL KNOWLEDGE
- What knowledge/expertise do we already have?
- Are they located inside or outside the organization? Their names?
- What knowledge/expertise do we need to acquire?

INSTRUCTIONAL TOOLS & MATERIALS
- What instructional tools/materials do we already have; which do we need to acquire?

INSTRUCTIONAL RELATIONSHIPS
- What is the nature of the relationships that currently exist among the identified problem-solvers?
- How can their ability to work together effectively be strengthened?

ORGANIZATIONAL STRUCTURES
- Who has authority to build organizational structures or use existing structures in this way?
- What structures are needed to develop this knowledge and skills?
