

# Technology in Learning and Teaching Faculty Symposium

## *Linking Journal Articles to your WebCT Course*

Linking  
Journal Articles  
to your  
WebCT Course  
**April 28, 2005**  
**2:00 - 3:00pm**  
**MLIB 226**

**Registration  
is required!**

**E-mail**

**[lsederberg@csuchico.edu](mailto:lsederberg@csuchico.edu)**

**or phone**

**898-4326**

**For more information**

**visit the**

**TILT Web site**

**[www.csuchico.edu/tlp/tilt/](http://www.csuchico.edu/tlp/tilt/)**

**or**

**TLP's Web site**

**[www.csuchico.edu/tlp](http://www.csuchico.edu/tlp)**

*Do you know that you can now use WebCT to link directly to*

- **thousands of journal articles**
- **hundreds of electronic books**
- **any materials that you have placed in electronic reserves through the Meriam library?**

*If you don't know, come and see how to do these things.*

New technologies and standards allow faculty the opportunity to provide stable and reliable links to scholarly materials that can be used to enrich and supplement your courses.

Faculty members can even construct online course packs that offer the advantages of immediate 24/7 access and can save their students money. Often the process is as easy as copying and pasting links into a web page. However, be aware that some library databases have their own idiosyncratic linking requirements and that off-campus users have special needs.

If you are interested in learning more on how to construct and place links to scholarly materials in your online course, Marc Langston and James Tyler will give a workshop on April 28, 2005, from 2:00-3:00pm in room 226 of Meriam Library.

Langston and Tyler will provide an overview and demonstration of linking technologies, and give faculty a chance for hands-on practice if you wish.

*TILT symposia are sponsored  
by Information Resources,  
Academic Technologies, and the  
Technology & Learning Program.*
