presents a

Faculty Symposium

Voice Tools: Add Audio in Vista Classes to Engage Students

Faculty Presenters:

Rony Garrido, Donna Jensen, Steve Koch, Ann Martin,
and Kuihee Song

Where and When: Studio A, basement of Meriam
Library, April 4, 2008 from 1 p.m. to 3 p.m.

What will be covered?

Your Vista toolbox has been expanded to include audio! Voice Tools are available NOW to use within your Vista classes. Come see how your colleagues use audio and the Internet to conduct guided surfing activities, put students in touch with one another via an Internet phone and text chat, and debate topics in a threaded audio discussion. These simple tools create exciting new ways to involve your students by reaching those with an auditory learning style.

If you would like to add audio to your course, you may sign-up for a consultation with Ann Steckel, x6780.
