NEWS

Faculty Symposium

“*Using Camtasia to Aid Instruction*”

Presenting

Sally Adams, Business Administration
James Tyler, Online Curriculum Support Librarian
Matt Philipps, TLP

Program

Want to create a narrated short tutorial to demonstrate how to use certain software or complete computer tasks by grabbing screen shots? *Think of the possibilities!*

This TILT session will demonstrate how Sally Adams does this through the use of *Camtasia* software. Online Curriculum Support Librarian, James Tyler, will also discuss how he has helped several faculty members learn and apply these skills. This software is easy to use, and can be a big help in simplifying the instructional delivery process. Come see live examples and ask questions.

Consider a *Camtasia workshop*, offered by Instructional Technology Consultant, Matt Philipps, Technology & Learning Program (TLP), in the basement of Meriam Library, room 003. For workshop schedules and to register online, visit <http://training.csuchico.edu>.

Sponsored by Information Resources, Academic Technologies
and the Technology & Learning Program
